THE NEW GIANTS OF
THE TOMATO WORLD

Gurney's Famous GIANT TOMATOES OFTEN 16 inches around!

These giants of the tomato world mature in only 90 days on huge, well-branched, spreading plants with plenty of foliage to protect fruit against sun scald. The fruits are quite deep and flat and will average from 12 to 14 ounces in weight. Some have reported tomatoes as large as 2½ pounds. The flesh is thick, meaty,

and very mild and there is nothing better for slicing and is fine for canning too.
410—GURNEY'S CRIMSON GIANT. Smooth, crimson pink fruit.
411—GURNEY'S GOLDEN GIANT. A great running mate for the Crimson Giant, just as large. Colors are deep golden.

YOUR CHOICE: 50c Packet; ½ Oz. Only \$1.50 Postpaid

A Welcome from George Gurney

Do you want the finest in seeds and plants—want something new and special for your garden that no one else in your neighborhood has—want your money's worth and a little more—want honest measure and friendly service?

Then you're welcome at Gurneys.

That's what we're here for—to give you the finest, healthiest, tested and state-inspected seeds and plants you can buy—to bring you a wide choice of varieties—to give you fresh strong plants—not like the dried ones in some stores.

And while we're doing it, we add in a little friendliness, a little extra-measure and fair dealings at all times. If we can help you with garden problems, we want to do that, too.

We hope you'll let us help you with your order, too. We think you'll be glad you did—at least we'll hand over backward trying to please you. We'll show you what hardy, healthy seeds and plants can be.

Sincerely,

Geo. W. Gurney

Geo. Gurney Says "This Is The Everbearer Of The Year"

25 New Hardy Ozark Beauty

STRAWBERRY PLANTS \$1.98
No. B-4123—FOR ONLY 1 Ppd.

George's Favorite Everbearer

George Gurney says this new everbearing strawberry is so sweet and delicious that he highly recommends it and wants everyone to try them this year. Excellent for eating fresh right out of the patch. Also makes fine preserves and fine for freezing. Iowa State University trials show Ozark Beauty the highest producing everbearing strawberry in 1961, making a sensational record of more than 12,000 quarts per acre. Plant Ozark Beauty and enjoy large, red berries from your own patch this very summer and fall. (It bears and bears and bears all summer.)

For 1963 A RED Peace Rose!

A-3625—RED PEACE. New at Gurney's in '63—the Red Peace Rose. Same giant blooms, same continuous blooms as the Regular Peace Rose, but deep, deep dark red. Blooms continuously all summer and fall. A vigorous plant, rich green foliage, fully double with eye-catching crimson blossoms that have a very pleasing fragrance. Nice long stems. Giant 2 yr. No. 1½ grade plants. 1.19 each; 3 for 3.49; 5 for 4.98, postpaid.

A-3641—Regular PEACE ROSE. Again you can enjoy this most popular, charming and lovely Regular Peace Rose at Gurney's Special low price. Be sure to order early as our supply is limited. Peace gives a panorama of beauty all summer and fall with its changing blend of colors. Rich, golden-cerise buds open into a canary yellow, then change to a creamy ivory. It's excellent for cutting and gives an abundance of bloom. It deserves its record as the most popular hybrid tea rose. Giant 2 yr. No. 1½ grade plants.

About VEGETABLE PLANTS

One of the quickest and easiest ways to get a fast start with vegetables is to set out plants. That's why some gardeners prefer them to seed.

The most important factor for good results is to use **ONLY TOP QUALITY PLANTS**. All of Gurney's vegetable plants are that. They are extra-hardy because they are field-grown. They are as husky, hardy and healthy as money can buy. Every field of our vegetable plants has been state inspected and every single shipment carries an Inspection Certificate! Only the very finest strains of seeds are used to assure you of the best results.

All Gurney vegetable plants are shipped to you direct from our growers.

Also, Gurney's guarantee safe delivery which means you receive only plants in first-class condition. You can buy all your vegetable plants from Gurney's with absolute confidence.

Choice TOMATO PLANTS Low As \$2.39 per 100

Many gardeners prefer to raise their tomatoes from plants rather than seed. We believe this is probably the easiest way to do it. All our tomato plants are top quality, hardy, field-grown and shipped to you direct from our southern grower. We guarantee they will reach you in first-class condition.

G-11—MARGLOBE. The Best Canner. It's wilt resistant and is widely adapted—seems to do well anywhere. This is one of the finest, solid, deep red tomatoes anyone can grow and has been a leader for many years. You'll be mighty happy with Marglobe.

G-10—EARLIANA. Earliest of All. This is the earliest tomato we offer. Has excellent flavor and quality plus being a heavy producer. This fine, early, red tomato is one of our most popular. Excellent for you northern planters as well as southern growers that want fruit ahead of the normal season.

G-12—SIOUX. Has Hybrid Vigor. A fine, early, globe-shaped, medium sized tomato that has real thick, meaty, juicy fruit. Its deep red color and excellent flavor make it "tops" for market and a favorite for home use. Sioux is a real sturdy grower and has true hybrid vigor. Does exceptionally well in Mid Western and Northern States.

G-8—GOLDEN SUNRAY. Resistant to Wilt. Golden-orange color with no acid. Mild, rich flavor and makes delicious juice. 6 for 1.00; 12 for 1.75; 25 for 2.95, all postpaid.

G-5—SHEYENNE. Smooth and Crack-Free. Originated by the North Dakota Exp. Station. Has beautiful scarlet fruit on a determinate or bushy type plant. Disease resistant and the fruit is smooth, deeply globed and free from cracks. Wonderful flavor. Plants, 12 for 1.25; 25 for 2.00; 50 for 3.75; 100 for 6.95 postpaid.

HYBRID TOMATOES

For Amazing Yields

It is now possible for you to raise bigger and better tomatoes than ever before with hybrids. Their hybrid vigor plus disease-resistance means much better results for you. We are offering only one variety in plants but you'll find other varieties in seeds on page 9 and you can start your own plants.

Gurney's TOMATO DUST 98c

5010—A combination fungicide and insecticide to give you disease and insect free tomato plants for better yields. 1 lb. sifter can 98c; 3 lb. bag 1.89, postpaid.

Gurney's CLIMBING TOMATO Plants Takes Less Space

Protect Your Crop With POTATO DUST

Easy-to-Use

5011—The best "all - purpose" dust we know of. Especially formulated for use on potatoes to help control insects and blight. Use it for bigger yields of higher quality potatoes. 1 lb. sifter can 89c; 3 lb. bag 1.69; 5 lb. bag 2.29, ppd.

100 POTATO SETS \$1.89

Your Choice of Any Variety We offer

- NO CUTTING NECESSARY
- TREATED FOR DISEASE
- TRIED AND TESTED

Sets are better and easier for you to use about every way you figure. They're scientifically cut with just the right amount of potato attached for perfect germination. We do the work. They're all scientifically treated against all soil borne diseases, plus a growth stimulator, too, and scientifically cured. All from finest Certified Potato Seed.

Choose from the Following

RED LASODA—Grows Anywhere

264—This is an extremely attractive bright red potato. Will yield a heavy crop under practically any soil or climatic condition. Medium early.

NEW NORDLAND—Shallow Eyed

263—If you like an early, extra smooth, red skinned potato of top quality try Nordland. Resistant to scab and yields a tremendous crop.

RED PONTIAC—Best for Boiling

262—A fine red skinned potato. An excellent "all-around" variety for boiling, baking and frying.

WHITE COBBLER—The Old Favorite

260—A variety that has everything. White Cobbler is fairly smooth, eyes not too deep and pure white flesh. An "all purpose" potato that cooks up well no matter how you use it.

NEW SNOWFLAKE—Early and Smooth

261—A brand new, early smooth white skinned potato from the North Dakota Exp. Station. Has shallow eyes. Tubers are round to oblong. Mature the same as Cobbler and yields well. Excellent for cooking and bakes beautifully.

GURNEY SEED & NURSERY CO., YANKTON, S. D.

No. 3

Big Lemon Grower

This picture shows William Petersen, Box 391 of Culbertson, Mont., and a huge lemon from a Gurney Dwarf Lemon plant. He might not grow so many lemons but you've got to admit they're big. You can grow the same kind right in your own home—see picture on order envelope.

Honesty In The Seed Business

When you buy most things, you see exactly what you are buying. But, when it comes to seeds or plants, you are buying something on trust—something that is going to be a Sapa Plum or Green Pod Bean when it has germinated, grown and borne.

So in the seed and nursery business, honesty is more than important—it's a must. At least we think so here at Gurney's. It was sort of "ground into us" as boys and we happen to believe in it. That's why we lean over backward always to make sure you get EXACTLY what you order and in good measure, so that when it has come into bearing you are happy that Gurney's is your headquarters for seed and nursery.

Now, some nursery stores aren't that careful. They just aren't nursery experts or seed experts and don't know. Their store is full of lawn mowers and vases; and seeds and plants don't come first with them.

Here at Gurney's, quality seeds and plants, absolutely true-to-name, state-inspected and healthy is ALWAYS what you get. Beside, you get your choice of thousands of varieties—not just one or two.

When you need seed or plants, and before you go to a roadside stand, think this over a bit. You'll be glad you did.

State Approves Gurney's Stock

When your big package of Gurney's nursery stock arrives, take time to notice the label. You'll find a special notice on it signed by the responsible state officials certifying that they have inspected our nursery and found it clean and free of disease.

This means a good deal to you. You don't want to buy from a nursery that can't get this approval. You want healthy stock and you can be SURE of it, when you order from Gurney's.

Try This On Your Friends

Have your friend think of his age. Then multiply it by two; then add 5; then multiply by 50; then subtract 385; then add the loose change in his pocket under \$1.00; then add 115.

When he tells you the result, the first two digits will be his age, the last two the change in his pocket! It works!

FOR KIDS ONLY!

YOURS FOR ONLY 1c

No. 100

This isn't for grown folks. This is for you kids only. It's a giant packet of a little bit of every kind of seed imaginable—both garden seed and flower seed, and we call it our "Giant Jumble Packet." We know you kids can't buy some of everything you want to try, so have rolled 100 different kinds together in one big packet. And it's a big one.

Now this must be your own penny. Don't ask anyone for it. And it must come with your folks' order. Just write No. 100 Gurney's GIANT JUMBLE PACKET on their order and put in your penny. You'll be buying your own complete garden.

The Pumpkin "King"

Here's 5 year old James Galstad of Currie, Minnesota and two of the pumpkins he grew all by himself from a packet of Gurney's Mixed Pumpkin seed. These were the first two ripe ones from his garden. James is the son of Mr. and Mrs. Ed Galstad of Currie. Thought you'd enjoy seeing this picture.

All Gurney Nursery Stock is FULLY GUARANTEED

A great deal of nursery stock, sitting on many store counters is dried out and often-times dead. Beside losing a whole year when you plant that kind of stock, it often isn't even guaranteed, you are just "out the money."

That's not true with Gurney's stock. Beside being live, fresh, state-inspected and approved, it is satisfaction guaranteed or your money back and it has been for years. That's the Gurney way of doing business and we wouldn't think of any other way.

That's why Gurney customers keep coming back. They KNOW they will get the finest stock, but if anything, by chance should be wrong, it will always be made right. Our guarantee is a fair guarantee and has pleased customers for years. Here it is:

NURSERY STOCK GUARANTEE

We guarantee all our nursery stock to be state inspected, free from disease, true to name, and first class in every way.

Examine the nursery stock carefully when you receive it. If you are not pleased with it in every way, return it promptly at our expense and we will replace it at once, or refund your money in full, whichever you prefer.

After you have planted it, if it fails to grow, owing to weather conditions or other factors over which we have no control, we will adjust for those losses once by issuing a credit for one half (50%) of the original purchase price providing your loss is reported to us not later than August 1, 1963.

Gurney Customers "BEST"

There's something just a little different and better about a Gurney customer. Generally they're good gardeners or want to be and want the very best in planting stock.

But, more than that, they just can't seem to rest until they "spread the word" among their friends and neighbors about the extra-quality of Gurney stock. Time and again we get orders from new customers who say, "So and So, our neighbor, gave me your catalog and told me to be sure and order my seeds and plants from you."

This personal word you speak for us is appreciated. It is better than all the advertising in the world and is probably why Gurney's have one of the most loyal groups of customers anyone could ask for.

And remember, when you do loan your catalog to a friend, don't be bashful about asking for another, we've got another copy for you. Just drop us a postcard and we'll get another copy out to you by return mail.

Your Check Is Good at Gurney's

Don't fret about how to send money in your order. Checks are generally the safest way and we accept them all. Gurney customers are honest people.

Of course, money orders and bank drafts are equally safe to mail, but they cost a little. We don't recommend generally the sending of cash. Lots of people do, but it's generally better to use checks, bank drafts or money orders.

"George Gurney's Corner"

All in all, we have had a wonderful season—plenty of moisture, good weather, good crops, and about the biggest rush of orders I've seen. More and more, it seems, folks are realizing the importance of planting, and getting hardy Gurney stock to do it with.

And planting is important. Look at the prices of vegetables and fruit in the store! If there was ever a good chance to save money by "growing your own groceries" this is it. A small garden, a few fruit trees, a strawberry and raspberry patch will cut a hole in those grocery bills—bigger than you'd think. But best of all, you get flavor and vitamins those store vegetables never had. That's something only those who grow their own can have!

And flowers, too, and shrubs and trees will give you a world of pleasure and lots of cut flowers for your home, both annuals and perennials. Besides, a nice planting adds many, many, many times what it cost to the value of your home. It's one investment you can't lose on. Plants become more valuable every year.

And don't forget, there's another merit in a garden. It gives you a chance for a little fresh air and exercise that's good for you, but, more than that, there's something that satisfies a need all of us have to create and grow something of our own. As an old friend of mine used to say, "A garden is good for you—physically, mentally and morally." I never saw a gardener who needed a psychiatrist.

We're all stocked up with wonderful plants for you. As I said, our season was good and the plants are healthy, strong, hardy, disease-free and cared for by experts. Don't fool around with the dried things in some stores. They aren't worth your money, let alone your time. Buying direct from a big nursery like Gurney's not only gives you a wide choice, new varieties, and unusual items, but also good fresh stock, carefully state-inspected, absolutely true-to-name and cared for by experts.

We're here to give you full measure and a little more. We're here to give you the finest seeds, plants and bulbs available anywhere, and prompt attention to your orders. And, if anything shouldn't be just right, let us know. We're here to please YOU and we'll do our best to do just that. Hope to see your order soon. This looks like a good planting year.

FREE GIFT Sent with Every Garden Seed or Nursery Order

It always has, and always will take a lot of old-fashioned courtesy to maintain a friendly business.

We believe in good measure and a little extra. This is why every order to Gurney's—big or small—has included with it a FREE GIFT for you.

It's not only fun to get a surprise with your order, but it's our way of saying "Thank You" for your business, and to express our hope that your planting will be a great success.

Welcome New Customers

Though way over half a million people regularly depend on Gurney's catalog, each year our catalog goes to hundreds of thousands of new customers, who are just getting acquainted with Gurney's seeds, plants and service.

To these we want to say right now, "WELCOME." Anything we can do to help you with your gardening or planting, we'll do. Besides the finest in seeds, trees, plants, shrubs, roses, bulbs, chicks, etc., if we can help you with your planting problems or questions, just drop us a line. We're here to help you. Your letters are always welcome. Gurney's always try to do just a little bit more and we want you to like us. Give us a try.

The reason antique chairs are uncomfortable is that comfortable ones become worn out in one generation.

\$5.00 For Your Picture

Want to earn an easy \$5.00 bill? If you do, here's how: Send us a snapshot of yourself, your family, your garden or whatever. It must be an extra print as we can't return it, but, if we can work it in one of our catalogs we'll mail you a \$5.00 check at that time.

Gurney customers always seem to be interested in other Gurney customers. They like to see what others are doing, just like you do. That's why we appreciate so much the snaps you send in. Won't you do it, too?

Buy By Mail? Yes, It Pays!

Most all of us have seen stores nowadays with a small sideline of a few seeds and a few plants. Some of the plants are alive, some are dried and dead. In most cases, the stores aren't seed experts or nursery experts and they just don't know how to care for plants. Their stores have vases and lawnmowers and seeds don't come first with them.

Here at Gurney's quality seeds and plants DO come first. They are our business. Instead of a dozen plant and seed varieties a store might have, we offer you over 2500 items and sizes to choose from.

Instead of plants drying out and dead in a showroom, our stock is fresh, alive and in scientific storage until it is sent to you in the finest possible growing condition.

Seeds and plants are too important to be bought from anywhere but the most dependable source. Bad stock not only costs you money—but time and trouble. It pays to get the best—the best and easy way, picked out in the comfort of your home and sent direct from the grower. You'll be glad you did.

Another Reason Gurney's Plants Are Better

It takes experts in horticulture to breed and grow the fine varieties and healthy plants Gurney's offer. But it also takes experts in packaging to make sure the plants which leave here in perfect shape arrive at your house in absolutely perfect condition.

Here is Gurney's new polyethylene packing machine which we added just last year. It makes and seals a special polyethylene package around Gurney's bulbs, perennials and strawberries. This special package allows the plants to breathe, but not dry out, and when they arrive at your door, they are in perfect condition.

Not many nurseries have these yet. Another reason Gurney's plants do better for you.

Tips For Increasing Your Garden's Yield

Crops Occupying Ground Part of Season Which May Be Followed by Others: Beans (bush), beets, cabbage, carrots, corn, kale, kohlrabi, lettuce, mustard, onions (green), peas, potatoes (early), spinach, turnip (spring), rutabaga (spring).

Crops Which May Follow Others: Beans (bush), beets, cabbage, carrots, corn, celery, lettuce, mustard, late potatoes, rutabaga (fall), spinach, kale turnips (fall), Chinese cabbage.

Crops Which May Be Used For Interplanting: (Early, quick-maturing, narrow-spaced) bean (bush), beets (early), carrots (early), lettuce, mustard, onions (sets), peas (early), radish, spinach. (Later, slower-growing, wider-spaced) broccoli, brussels sprouts, corn, cucumber, muskmelons, cabbage, pumpkins, spinach (New Zealand), tomatoes, squash, watermelons.

Crops Which May Be Planted Together in the Same Row: (Quick-germinating and maturing) lettuce (leaf), mustard, radish, spinach. (Slower-germinating and maturing) beets, chard, carrots, leek, spinach (New Zealand), parsley, parsnips, salsify, onions (seed).

Get Double Use From Your Garden By Crop Succession

Plant radish seed very thin and follow at once with parsnip, carrot, parsley, asparagus, onion or leek right in the same row. Pull the radish and use when it is large enough, or: Plant radish very early followed by early cabbage plants set every two feet in the row and after the cabbage is off sow late turnips or Chinese Cabbage.

Plant beets, kohlrabi, lettuce, mustard, spinach, onion sets, radish or early beans or peas between rows of late cabbage, melons, squash or tomatoes.

Follow early peas and beans with late cabbage.

Plant two rows of potatoes between each two watermelon rows and dig potatoes after the melons are gone.

Fruit Planting Guide

Variety	Distance Apart In Row	Distance Rows Apart	Approx. Yrs. to Bearing	Av. Prod. Per Plant
Apples	25 ft.	25 ft.	8	6-10 bu.
Cherries	18 ft.	18 ft.	3	2-3 bu.
Plums	12 ft.	16 ft.	4	1-3 bu.
Peaches	12 ft.	16 ft.	3	2-5 bu.
Pears	14 ft.	16 ft.	6	2-5 bu.
Grapes	6 ft.	6 ft.	3	15-20 lbs.

Asparagus	1 ft.	4 ft.	2	1-2 lbs.
Raspberries	3 ft.	6 ft.	2	2 qt.
Blackberries	4 ft.	6 ft.	2	1 qt.
Strawberries	1 1/2 ft.	4 ft.	2	1/2-1 qt.
Gooseberries	3 ft.	4 ft.	3	1/2-1 qt.

When a man starts throwing dirt you can be sure he's losing ground.

He who puts all he has into his work usually succeeds—because he has little competition.

Celery may follow early peas, beans, lettuce, radish or spinach.
Plant late turnips in vacant spaces about the garden.

A SUGGESTED GARDEN PLAN

A 4-H Winner

Jerry Colomb, son of Mr. and Mrs. I. J. Colomb of 3339 Cribau Lake Road, Duluth, Minn. shows how to arrange flowers as part of his 4-H work. The flowers were grown from Gurney's seed and he won a championship ribbon at the County Fair.

Who Is The Biggest?

Little Michael Rodrigue was 18 mo. old when this picture was taken. Chances are the melon outweighs him quite a bit. Michael's sister, Kathleen, raised the melon from Gurney's seed but we bet Michael got his share of eating.

Save \$3.50 Bu. On Seed Corn

Maybe you're content paying \$10, \$11, \$12 and even more for seed corn. But a lot of your neighbors are not.

Every year, more and more farmers find they don't have to pay high prices for seed corn, if they buy direct from the producer. Selling through agents is just plain expensive, and when they buy direct, they cut out the agent's commission and save it for themselves. Their wives can generally find a use for it.

Here's what one good Gurney customer has to say on the subject: "I planted different kinds of corn and I believe your corn was as good as any of the others. I'll be down and get some more."—J. C. Pederson, Viborg, S. D.

The Fox, Goose and Corn

A farmer, moving, has a fox, a goose, and a basket of corn. He comes to a river and the boat will only carry the farmer and one of his charges. Now, if he leaves the fox and the goose alone, the fox will eat the goose, and if he leaves the goose and the corn alone, the goose will eat the corn. How can he safely take them all over the river SEE ANSWER ON PAGE 5.

One of Gurney's Many 'Secrets' That Makes Better Stock

Extra-hardy and superior nursery stock just doesn't happen. In a century of growing, we've learned many new tricks that many smaller nurseries haven't the facilities to learn.

One of them is illustrated by the 2 yr. old Gurney apple tree at left—15 apples on it and it's only 2 yrs. old. The reason—simply a 'secret' we learned which other nurseries haven't. All our apple trees, like the fine block pictured above in our nursery, are budded on genuine Siberian Crab understock. This was originally brought to this country by the late Dr. H. E. Hansen. In our experiments, we learned this not only makes our trees hardier, but it also makes all our apples bear much earlier than others.

Even better, it gives a little 'dwarfing' influence to Gurney trees—giving as much or more fruit on an easier-to-pick tree. This, plus extra-hardiness, plus early-bearing are extras found in Gurney trees—an extra from one of our 'secrets'. We have more, too, as we want everything you buy from Gurney's to be superior. And we think it is.

Planting TALK

By "Russ" and "Stu"

Once a watermelon is cut, it should be eaten at once. If part of a melon is put in the refrigerator, it deteriorates and contaminates other food. That's where our small "icebox" size melons come in. Small enough, you can put whole melon in refrigerator. Our Market Midget is just as nice a melon as you can find and some of us like our Sugar Baby even more. Try some.

Planting nursery stock properly is important, but it's easy. Here are the 3 basic rules: 1. Dig holes large enough to hold roots without crowding. 2. Fill hole once or twice with water before planting. 3. Set plant an inch or so deeper than it was in nursery row and PACK EARTH ABOUT IT FIRMLY so no air pockets are left. Then water. That's all. Water newly set plants from time to time.

Don't forget our flowering crabs produce food that birds are very fond of. If you love birds and beautiful flowers, the flowering crab is for your garden.

Strawberry beds should be re-established every second or third year for best results to avoid virus contamination. All Gurney strawberries are inspected and virus-free—produce more.

Also about strawberries—spraying with our Berry Set (page 26) gives you MUCH increased strawberry yield and bigger, meatier, sweeter berries.

We're often asked to recommend the BEST lawn seed. We have mixtures for all purposes, but for ALL-ROUND perfection, our Capital Mixture has been made as good as is known how. It's a scientific formula blend of bluegrass with perennial fescues, perennial ryes to give a beautiful green lawn in all conditions all summer. 95c lb. in 10 lb. lots. Use 1 lb. per 225 sq. ft. of new lawn. See page 55.

Preventive measures are more effective than cures. The good gardener keeps an eye on his plants each day and controls pests and diseases when or before they start. It's easy with Gurney's Bug Dust. You only need one dust as it's both an insecticide and a fungicide in one dust. Dust in morning or evening when air is still. Cover underside of leaf, too. That's where most of the troubles will start.

A fruit tree plant's value in your yard isn't only the big amount it cuts your food bill. It also gives beauty in the spring, shade in the summer and quality and flavor in tree-ripened fruit you can't get anywhere else. You can have that quality and flavor all winter by canning or freezing.

We're proud of the over 110 new varieties Gurney's have found and added for you in the catalog this year. They're on every page. The New Peter Piper Pepper (hybrid), originated by our S. Dak. Experiment Station is a real "find." It's two weeks earlier, yields well. Eating quality perfect.

Plant a few Mammoth Sunflowers for the birds. Sunflowers will grow anywhere and for anyone and the birds will do their own harvesting.

We like annual flowers. They are so easily grown from seed. We have such a large variety to choose from, you can change your patterns and colors each year. Our favorites are Zinnias, Marigolds and Petunias.

A Guide For Grass Seed Needs

Quantity of Seed	Makes New Lawn	Reseeds Old Lawn
1 lb.	200 sq. ft.	400 sq. ft.
3 lbs.	600 sq. ft.	1200 sq. ft.
5 lbs.	1000 sq. ft.	2000 sq. ft.
10 lbs.	2000 sq. ft.	4000 sq. ft.
50 lbs.	10000 sq. ft.	20000 sq. ft.

No man ever got lost on a straight road—Lincoln.

A man considers a woman a gossip because she repeats things he tells her.

I've often worried about people speaking of doctors "practicing."

GROW \$\$\$ IN YOUR OWN BACKYARD

Been shopping lately? Tomatoes at 30c a lb.! Onions 10c or 12c lb.! Melons 4c or 5c lb.! Lettuce 25c per head! Really eats up cash fast, doesn't it?

Gurney gardeners avoid much of that. Growing your own groceries is much like growing dollar bills right in your own backyard, especially with the prices downtown like they are. Best part of it is, besides cutting food bills, gardeners also have BETTER-tasting, better quality fruits and vegetables. Fresh picked garden truck has more vitamins, more minerals with nothing lost from long shipping. That kind of food cuts doctor bills, too.

Besides that, gardeners always feel better, look better and generally seem to be happier people. Gardening is good for you, your food is healthier and all the time you save REAL money when you grow your own food.

Put in a big garden this year. We promise you'll be glad that you did!

NEWS FROM GURNEY'S

Anyone For Peaches?

We thought you'd enjoy seeing this picture of Mrs. Lillian Upton's two daughters "Selma" and "Genie" reaching for a Gurney peach. The Uptons live in Pennington, Alabama, and have been good Gurney customers for some time. You can raise peaches just as easily.

For Kids Only

Here's little Miss Suzanne Carr of Donaldsonville, Georgia, and two watermelons she grew from her 1¢ Jumble Packet of Gurney's seed. She wrote that she sure did enjoy her little garden. Thousands of kids take advantage of our 1¢ seed offer. (See page 3).

Another Gurney Customer

Mrs. Pluma Monsen, who lives up at Rt. 1, Box 88, Briceyn, Minnesota, sent in this picture of herself. She wondered how we liked her nice Sansevieria plant. Note the eggs in the lower right-hand corner. She says egg cleaning is her every day chore. House plants certainly add beauty to any room.

It's Sweet Corn Time!

This picture comes from way out in Port-Hill, Idaho, and was sent in by Mrs. A. Thorman. The picture shows her daughter Joyce in the corn patch with a pan full of Gurney's "Early Sunglow" sweet corn headed for the freezer. She wrote they also had our Double-rich tomatoes and the flavor was delicious and the yield heavy.

Gardening Solves Troubles

Here's a letter we think about sums it up perfectly:

"Dear Gurneys:
Does anyone here have a problem? Time on your hands? That's easy, raise a garden. Can't control your waistline? That's easy, too. Raise a garden. And don't just grow vegetables; eat them, too. An hour a day of bending, squatting, creeping and kneeling, especially under a hot sun, will melt those pounds away.

Can't live within your budget? Nothing simpler. Raise a garden. Say, I'm beginning to sound like a stuck phonograph record. But a good gardener will have one or more items from his garden on the dinner table every day in the year, and that ought to take some of the pressure off the budget.

The International situation has you worried? Just get a catalogue and start making out that seed order.

Mad at the boss? Just grab a hoe and take it out on the weeds.

The Chinese have a saying to fit the situation: "If you want to be happy for three days, get married. If you want to be happy for a week, kill a pig. If you want to be happy forever, raise a garden."

Don't Miss The New Varieties

We are always checking, testing, and trying new plants and varieties at Gurney's. And each year, we pick the very best to add to our complete listings so Gurney customers have the finest.

This year, we've added many new garden and flower varieties throughout the book, but we particularly want to call your attention to these below:

Orchid Glads pg. 1; Norse Fire Plant pg. 1; Giant Tomatoes pg. 1; Carnation Begonias pg. 36; New Ground covers pg. 47; Football mums pg. 45; Collarette Dahlias pg. 41; New novelties pg. 6; Evergreen shrubs pg. 47; Many new peonies pg. 44; Snowflake potatoes pg. 2; Scarlet Icicle Radish pg. 11; Hybrid spinach pg. 10; Casaba melons pg. 14; Wedding Bells Morning Glory pg. 34; Grand Opera Cannas pg. 41; Evergreen hedges pg. 49; Tree roses pg. 53; Cortland & Redwell apple pg. 21, Ozark strawberry pg. 1.

There are many, many more—some 110 in all—too many to list here. Almost each page has something new. We recommend them to you.

Success does not come so much from sitting up nights as it does from staying awake in the daytime.

Answer To Puzzle On Page 4

Take goose over, return and take fox over, bringing goose back, take corn over, return for goose.

About These "SPECIALS"

I think every gardener enjoys growing something just a little bit different than his neighbor. That is why I've set aside this whole page of unusual and hard-to-find items. Yet they are all easy to grow. You'll get a big "kick" out of trying as many of these new "fun" items as you have room for. Look over the assortment of plants on this page and be sure to include some of them on your next order.

Vegetable SPAGHETTI—25c

It Grows Anywhere

230—An unusually interesting novelty vegetable. The flesh of it is a spaghetti-like pulp. When cooked, it can be served either hot or cold, or with salad dressing. The fruit is a member of the squash family—a deep golden yellow, about 8 or 10 inches long. It can be cooked whole without cutting or peeling in boiling water. After 30 minutes, cut it in half, remove seeds from the center and it is ready to serve. When fruits are young and tender, they can be sliced and fried like an egg-plant. It thrives anywhere and requires only ordinary squash care. Packet 25c; ounce 75c, all postpaid.

EXOTIC PLANTS FROM HAWAII

Here are four, new, exotic plants which will be shipped direct to you from romantic Hawaii. All easy to grow and we guarantee safe delivery. Shipped between Mar. 1 to May 15. If you've never tried these novel plants you don't know what you have been missing. It's easier than you think and you'll get lots of fun out of them. Give them a try.

C-2501—RUBY TI PLANT. This one has showy red and green leaves that change with the season. The legendary "Good Luck" Plant of the Islands. We ship cuttings that make plants quickly. 2 for 1.00; 6 for 2.65, ppd.

C-2502—ORCHID BULB. Grows in soil just as easy as a philodendron. Blooms beautifully indoors with 4" flowers of various shades. Very showy pleated foliage. 1.00 each; 3 for 2.65, ppd.

C-2500—HAWAIIAN COFFEE TREE. A real conversation piece and a real coffee tree too! Has rippled, shiny green leaves. Likes shade. 1.00 each; 3 for 2.65, ppd.

C-2503—HAWAIIAN RED GINGER. Beautiful foliage with flaming torch-like blooms. Really breathtaking. This rich foliage plant likes rich soil and moisture. 1.00 each; 3 for 2.65, ppd.

Grow Your Own ORNAMENTAL COTTON—Pkt. 25c!

Even In The North-Central States

1014—Cotton makes a very ornamental plant here in the north-central states. Fits well into your flower garden or in the border. Has showy flowers followed by fluffy balls of white cotton. You will enjoy showing the plants to your neighbors and you'll get lots of comments about them too. Packet only 25c, postpaid to your mailbox.

Amazing Luffa Sponge 35c

Ornamental and Useful

1113—With Luffa Sponge Vine you can grow your own sponges. This is an amazing plant and anyone can raise them right in their own back yard. A beautiful fast growing vine with attractive yellow flowers. The sponges last a long time in actual use and you'll find dozens of uses for them in the kitchen, bath and elsewhere. Excellent for washing the car. How to grow directions are sent to you with each packet.

Pkt. 35c; 3 for 1.00, postpaid.

SENSITIVE PLANT 25c Pkt.

Touch Leaves and They Fold Up

1002—(Mimosa). One of the wonders of the plant world. This plant never ceases to be of interest to everyone who sees it. A beautiful plant in itself with fine, ferny foliage and fluffy, clear pink globes. The interesting thing about the Sensitive Plant is that when one touches the leaves, they fold and droop in a most grotesque manner. Leave them alone and in a little while they will straighten right up again. Children have loads of fun playing with it and it is a plant that will amaze everyone.

Try Experimenting With These New ATOMIC SEEDS

Many plant breeders use irradiated seeds to produce new and improved varieties. Atomic irradiation upsets the cell structure in many cases and, then, produces individuals with new and different characteristics.

You WILL have fun watching for new developments in these plants. Who knows, you might originate a winner.

Choose From These Varieties:

1174R—Heavenly Rose Petunia. Normally a large flower with clear pink blooms. Watch for a variation in color and in number of blooms per plant.

1142R—Petite Marigold. This little border marigold is very uniform and free blooming with double golden yellow flowers. Watch for variations in blooms and larger plants.

1257R—Crimson Monarch Zinnia. This one normally has large dahlia-like blooms of deep crimson. Watch for a variation of bloom shape as well as color.

(Save seed from all for next season's planting.)

YOUR CHOICE OF ABOVE SEEDS:

SPECIAL ATOMIC OFFER

2000XR—1 Pkt. each of all 3 varieties at the left only 2.59, postpaid.

3 New HYBRID CALLA LILIES

\$1.25

A New Color Break

8G-403—These Hybrid Calla Lilies are all crosses. The resultant hybrids produce a great variety of color; however, most of them will be shades of pink, apricot and light orange. This is a vast improvement over the old white ones. We think these are something you Calla "Fans" should get acquainted with. These were originated by one of the finest American plant breeders. Our supply is limited.

50c each; 3 for 1.25; 6 for 2.25, postpaid.

EXOTIC BAMBOO

New—Hardy

That's right. The same kind grown in Asia. Contrary to what many think, some types are extremely hardy and have lived through 20 degrees below zero temperatures. Tops freeze but roots survive. We offer well started plants.

C-2468—Tall Outdoor Bamboo. Graceful canes hold foliage a long time.

C-2470—Indoor Tall Bamboo. Beautiful yellow-green canes. Feathery foliage. 6 ft. tall Grows indoors. Your choice of above—2.98 each; 2 for 4.98, ppd.

C-3601X—One each of the two above for 4.88 ppd.

JERUSALEM ARTICHOKE

Yields Up To 20 Ton Per Acre

255—(Girasol). An old vegetable often called "diabetic potato." It's also a valuable feed for stock too. Yields about 10 to 20 tons of tubers per acre. Grow like potatoes. Eat baked, boiled, fried or raw in salads. Valuable food for diabetics.

Keep tubers in the ground over winter as they are not injured by freezing. How To Grow Directions and Recipe Leaflet with each order.

5 Lbs. 2.75; 10 Lbs. for 5.25, ppd.

GARDEN ALMOND

Has Nut-Like Flavor

244—(Chufa). A novelty plant of special interest to the kids. Harvest with potatoes. The small nuts grow under the soil, like peanuts. The flesh is snow white and can be eaten raw or roasted. Has flavor like raw coconut or raw almond. Grow anywhere potatoes do. Cannot ship to California formla.

Pkt. 25c; 1/4 lb. 50c; or 1 lb. 1.25, ppd

Japanese GIANT RADISH

Giant Of Them All

439—(Sakurajima). These mammoth white radishes often weigh 15 lbs. The flesh is firm, brittle, with fine flavor. Sow in late July. Also good feed for livestock.

25c Per Pkt., postpaid.

2 PIGMY PALMS

\$2.39

The Dwarf Date Palm

C-2492—This is a dwarf date palm which is closely related to the commercial varieties. They will grow to about 2 to 3 feet in height when grown and are easy to get along with. A very ornamental plant and sometimes produce edible fruit. Our supply of these plants is limited so it's first come—first served. Order early.

1.39 each; 2 for 2.39, postpaid.

VENUS FLY TRAP

89c

Lives On Insects

C-2494—(Dionaea muscipula). A plant which feeds itself on flies and other insects. Leaves are hinged at the center to form a trap and open. When a fly strikes one of these leaves, they will close automatically and the insect is digested. Venus Fly Trap plant grows best in a small greenhouse or a terrarium bowl. Not an outdoor plant. Don't miss it. 89c each; 2 for 1.75, postpaid.

FLOWERING KALE

25c

Ornamental As Well As Edible

1241—Looks like a cross between Kale and cabbage. Sow the seed in May or June. The crinkly leaves turn a very colorful shade of white, pink, rose and red in the fall of the year. Makes a fine flower arrangement and besides that, it is edible too. Use it as you would regular Kale, as greens or it can be used in

many salads. This is one novelty plant you will want to be sure and grow this season.

Pkt. 25c; oz. 50c, postpaid.

Native ALASKAN SEED

Shipped Direct To You From Alaska

These native flowers of Alaska are actually collected from their natural seed beds and are mailed direct to you. Full directions for caring for them printed on each packet. We are experimenting with them here at Yankton. We thought you would like to try them there in your own garden. Our collector can supply the following varieties:
1026—Lupine (Lupinus arcticus)
1027—Columbine (Aquilegia formosa)
1028—Alaska Blue Daisy (Erigeron tuncer)
1029—Fireweed (Epilobium angustifolium)

1030—NORTHERN LIGHTS—Alaska Wild Flower Collection. Many different varieties. A glorious mixture. You will like these. 1.00 per packet. Postpaid from Alaska.

3 Fragrant GLADS 50c

Acidantha

8G-310—This is actually not a true gladiolus, but often referred to as the "fragrant glad." The blossoms are a pure, glistening white with a purplish maroon blotch borne on tall spikes that are often two to four feet tall. What will amaze you is their delightful fragrance, there is nothing quite like it. Acidanthas are very easy to grow and the bulbs should be handled exactly as you would handle your glad bulbs.

3 for 50c; 6 for 92c; 12 for 1.42, postpaid.

CARROTS

About Growing Carrots—Surprising as it may seem, the carrot is actually 88% water, but it is the best source of Vitamin A of any vegetable and by actual analysis has 6,000 units of it in a cupful. A cupful of carrots contains only 45 calories.

The carrot is a versatile vegetable, too. They can be served in raw strips or complicated salads and hot dishes.

Carrots like relatively large amounts of moisture and do their best growing at temperatures between 60 and 70 degrees.

Plant as soon as possible in the spring. Cover seed 1/2 in. deep with rows 18 to 24 in. apart. Thin out 1 to 2 in. apart in row. Cultivate well. Packet sows about 20 ft. An ounce sows about 100 feet of row.

TENDERSWEET—Crisp and Sweet

635—(75 days.) We don't know of a sweeter, better carrot than Tendersweet. It is coreless, fine textured and a beautiful deep orange. If you like carrots and want to try a new, tastier better variety—be sure and plant Tendersweet. We consider it one of the very finest. Pkt. 20c; oz. 73c; 1/4 lb. 1.88, postpaid.

DANVERS HALF LONG

For Storage & Canning

627—(75 days.) Medium in length and of rich orange color. One of the finest quality, best tasting carrots. Out yields almost any other variety. One of our best storing and canning varieties. Pkt. 17c; oz. 60c; 1/4 lb. 1.45, postpaid.

EARLY CORELESS

For Home Use or Market

634—(70 days.) Beautiful carrots about 8 in. long, 1 1/2 in. thick, and the same size top to bottom. Flesh scarlet-orange. Very sweet, fine grained, tender, nearly coreless. Fine for bunching, for winter or freezing. Pkt. 20c; oz. 70c; 1/4 lb. 1.65, postpaid.

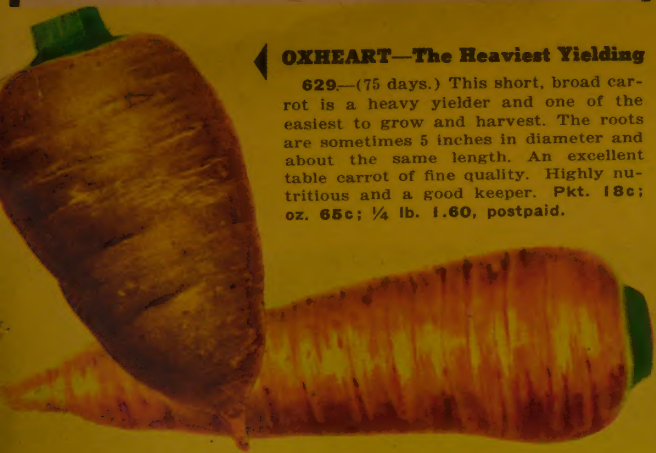

CARROT SPECIAL

250X—Here's an all season supply of fresh carrots. We send 1 pkt. each of Oxheart, Danvers Half Long and Red Chantenay.

All 3

Postpaid

OXHEART—The Heaviest Yielding

629—(75 days.) This short, broad carrot is a heavy yielder and one of the easiest to grow and harvest. The roots are sometimes 5 inches in diameter and about the same length. An excellent table carrot of fine quality. Highly nutritious and a good keeper. Pkt. 18c; oz. 65c; 1/4 lb. 1.60, postpaid.

DANVERETTE—An Extra Fine New Carrot

628—(70 days.) A smaller, more refined type of Danvers Half Long. Has a beautiful deep orange color and the quality is excellent. Dandy for freezing and canning. This is one of the newer varieties and is fast gaining in popularity with gardeners everywhere. Try it—you'll be more than delighted. Pkt. 18c; oz. 65c; 1/4 lb. 1.60, postpaid.

Red Cored CHANTENAY

So Sweet and Tender

630—(70 days.) Small cored, with bright orange flesh, fine grained, tender, crisp and sweet. It is medium early, maturing in about 70 days. The tapering roots are about 6 inches long and 1 to 2 inches in diameter. Easy to pull. May be grown as spring, summer or fall crop. We think this one is about the best, most delicious of all the carrots we are offering. Pkt. 20c; oz. 70c; 1/4 lb. 1.65, postpaid.

Had Trouble With CARROT GRUBS?

Sow Aldrin Granules along with the seed to stop these pests. Works with parsnip seed, too. See Aldrin Granules on page 24.

PERFECTION—The Sure Yielder

157—(65 days.) Plant Perfection and have green peas all season. The finest, sweetest quality and tenderness that you have ever tasted. Most drought and heat resistant of all. Grows about 2 feet tall and loaded with large pods containing 6 to 10 peas. Triple size pkt. 25c; 1/2 lb. 50c; 1 lb. 85c; 3 lbs. 1.95, postpaid.

EDIBLE PODDED PEAS

No Shelling Necessary

160—Dwarf Gray Sugar. (57 days.) The pods are so juicy and tender you do not shell them but eat pods and all, like string beans. If you have never tried Edible Podded Peas you don't know what you have been missing. Triple size pkt. 25c; 1/2 lb. 50c; 1 lb. 80c; 3 lbs. 1.95, postpaid.

Extra EARLY ALASKA

Disease-Resistant

146—Earliest of All. (52 days.) Alaska is the earliest and heaviest yielding. The slender light green vines are literally covered with pods. The peas are of excellent quality, and as they ripen at once, are easy to gather. If you want a lot of peas and want them early, plant Alaska. Triple size pkt. 22c; 1/2 lb. 49c; 1 lb. 79c; 3 lbs. 1.95, postpaid.

AMERICAN WONDER

Early Favorite—Heavy Yielder

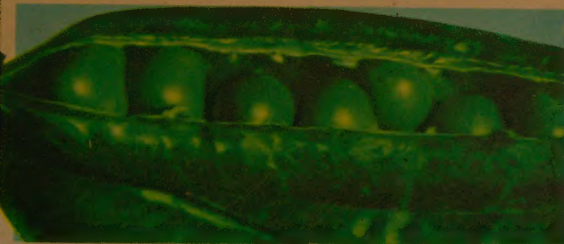

149—(60 days.) Our improved strain is one of the earliest grown. The dwarf 1 ft. vines are covered with medium size pods.

This is one of the sweetest and tenderest peas we have ever raised. Plant American Wonder for top quality. Triple size pkt. 20c; 1/2 lb. 49c; 1 lb. 79c; 3 lbs. 1.90, postpaid.

EARLY SWEET

Tender, Delicious Wrinkled Alaska

159—(55 days.) The new wilt-resistant pea. Like Early Alaska, except somewhat larger and wrinkled. Bears in 55 days. Grows about 2 1/2 to 3 feet tall. We are sure you will like this fine canning and table variety. Triple size pkt. 19c; 1/2 lb. 49c; 1 lb. 80c; 3 lbs. 1.95, postpaid.

LAXTON'S PROGRESS (Big Dakota)

144—(65 days.) You want the most peas you can get, don't you? Then plant Laxton's Progress. By actual count we have found that they yield more pods to the vine and more peas to the pod. They are of delicious quality and luscious tasting. The largest peas you have ever raised. Fine for freezing. Triple size pkt. 22c; 1/2 lb. 50c; 1 lb. 80c; 3 lbs. 1.95, postpaid.

VICTORY FREEZER

Best for Freezing

154—The new "All-America" medal winner. Matures in 65 days with tremendous yields of delicious high quality peas. Grows to 29 inches. Big 3 1/2 in. pods. Considered one of the very finest of all garden peas for home freezing. Triple size pkt. 23c; 1/2 lb. 50c; 1 lb. 80c; 3 lbs. 2.00, ppd.

LITTLE MARVEL

Tender and Sweet

152—(62 days.) If we could have but one kind, it would be Little Marvel and we've tried them all. Very tender, heavy yielder. It will be a long time until we find a better one. In yield, earliness, quality and delicious sweetness it is tops. Fine for freezing. Triple size pkt. 25c; 1/2 lb. 50c; 1 lb. 80c; 3 lbs. 1.95, postpaid.

BLACK EYED PEAS

An Old Favorite

168—The old-fashioned kind that are so popular in the south. Use green in the summer and dry for use like beans in the winter. You'll enjoy this old favorite "southern" dish if you've never tried it before. They can be grown anywhere and are very prolific. Triple size pkt. 20c; 1/2 lb. 48c; 1 lb. 79c; 3 lbs. 1.85, postpaid.

BETTER SEEDS GIVE BETTER PEAS

About Peas—You will never know how good peas really are until you eat them fresh from your own garden. Early planting is important. Peas appreciate cool soil with plenty of moisture. Figure on using 1 lb. of peas for a 50 to 75 ft. row. Only extremely dwarf varieties should be grown without a support. To make a support, use brush branches or tree limbs. Sharpen the end of branch and push it firmly into the soil. Do it as you plant. Little Marvel is real early and probably the most popular variety of all. It freezes nicely. For a continuous supply, make several plantings weekly.

LAXTONIAN . . . Vigorous and Dependable

141—(64 days.) The top notch early pea. This is a pea that just suits us, and we eat lots of peas during the season.

The vines of this large extra early, heavy bearing pea are very stocky, dwarf and vigorous. The pods are long, dark green and simply bursting with immense, sweet, tender, high quality peas. Excellent for home gardens and freezing. Triple size pkt. 22c; 1/2 lb. 49c; 1 lb. 79c; 3 lbs. 1.95, postpaid.

HOME FREEZER Special

MIDGET VEGETABLE SPECIAL

650X—Here is everything for that Midget Vegetable Garden. One packet each of the above 6 vegetables for only 98c, postpaid.

TOMATOES

Today, the tomato is America's No. 1 vegetable. It is grown in more gardens by more people than any other. Days indicated in variety descriptions are from plant setting to picking time. 1 Pkt. of seed will produce enough plants for a 600 ft. row. 1 oz. will produce 1500 plants. Usually there are several weeks of good growing weather after the first fall frost. Cover your tomato plants and get them through this period and you can continue to enjoy fine vine ripened tomatoes much longer in the fall.

SIoux

Has Hybrid Vigor

429—(70 days.) A special selection of two leading varieties plus unusually fine hybrid vigor. Fine for market or home use. Globe-shaped, medium size, early, thick solid walls, deep red color. Pkt. 20c; ½ oz. 75c; 1 oz. 1.20, postpaid.

GOLDEN SUNRAY

It's Golden Orange

MIXED TOMATO SEED

424—For those who want an assortment of tomatoes, try this mixture. From early to late, red, pink and yellow, you will find them all. It is made up of equal parts of Earlibell, Bounty, Marglobe, Sunray, Yellow Pear, Rutgers and Hy-Top. Pkt. 20c; 2 for 35c, postpaid.

BOUNTY—One of Our Heaviest Yields

417—(65 days.) Early and extremely heavy yielding. Smooth and firm with a pleasing flavor. Early ripening, self-pruning, uniform and tops in quality. Pkt. 25c; ¼ oz. 35c; ½ oz. 65c, postpaid.

Gurney's PEPPERS

About PEPPERS. Peppers keep the Mexicans healthy because they're full of vitamins. Very easy to grow. Care for your peppers as you do tomatoes. Start plants indoors as peppers are slow growers. Get them out as soon as frost dangers are past. Poor yields of peppers are usually due to dryness or drying winds at blossom time. Irrigate if you can and mulch.

SUNNYBROOK

Sweet Pimento Type

644—(65 days.) The tomato-shaped pepper. Fruits round, flat shaped and deep red. Fruits grow upright on strong 2½ ft. plants. About 3 in. in diameter. Mild thick-fleshed and sweet. Pkt. 15c; ½ oz. 45c; 1 oz. 75c, postpaid.

YOLO WONDER

433—(90 days.) Be the talk of the neighborhood. Tie to a trellis and watch it go—10 to 18 feet! Produces large crimson fruit of fine flavor and often weighing over a pound. Few seeds. Pkt. 35c; 2 for 55c; ½ oz. 1.00, ppd.

ROMA—Best For Chili

435—(76 days.) Mild pear shaped, dry fleshed. Big yield on small vines. Dark red fruits 2½" long, 1½" across. Makes wonderful chili sauce and catsup. A fine "all purpose" tomato. Pkt. 25c; 2 pkts. for 40c, ppd.

BOUNTIFUL—Famous Canner

109—(50 days.) A very heavy yielder of excellent quality. Pods are big, green and showy. Rich flavor makes it a favorite for canning. A dependable continuous bearer. Triple size pkt. 22c; ½ lb. 50c; 1 lb. 85c; 3 lbs. 2.15, postpaid.

New! GARDENGREEN—"All America" Award Winner

138—(55 days.) Produces tremendous yields of straight round bright dark green pods over a long period. Its excellent flavor, ease of picking and lack of any stringy fibers make it a favorite. 5 to 5½-inch smooth, stringless pods. Triple size pkt. 25c; ½ lb. 65c; 1 lb. 1.15; 3 lbs. 2.85 ppd.

HOME GARDEN BEAN OFFER

135X—½ lb. each of Garden Green and Pencil Pod Black Wax. Both for only 98c postpaid.

WAX BUSH BEANS

About WAX BUSH BEANS. The only difference between Wax Bush and Green Bush Beans, aside from color, is that the wax type has a more delicate, milder flavor and the pods are a little more tender.

Wax beans yield just as heavy, are stringless and require the same care as the green. If you have never grown the wax before, try some. 1 lb. plants a 100 ft. row.

BUTTER WAX

It's Smooth As Butter

139—(54 days.) This one has unusual vigor and is a tremendous yielder. Makes bushes 16" tall, sturdy and rugged. Pods about 6½" long, slightly curved, thick meat and richly flavored. The color is an attractive buttery yellow. Triple size packet 25c; ½ lb. 65c; 1 lb. 1.15; 3 lbs. 2.95, postpaid.

CHEROKEE WAX

Earliest of All

118—(50 days.) Earliest of all beans. Stringless, with bright yellow pods 6 inches long. Heavy bearer. Black seeded. Flesh is thick, crisp, tender and delicious. Triple size pkt. 25c; ½ lb. 60c; 1 lb. 95c; 3 lbs. 2.15, postpaid.

PENCIL POD

Our Heavy Yielder

105—(55 days.) A wonderfully flavored, rich dark yellow, stringless snap bean. Very vigorous and hardy. The seed is black when ripe. Extremely good for home, market, canning and freezing. Triple size pkt. 22c; ½ lb. 50c; 1 lb. 80c; 3 lbs. 1.98, postpaid.

BRITTLE WAX

The Home and Market Bean

110—(50 days.) Clear, waxy yellow pods, 6 to 7 inches in length, are absolutely stringless, tender and delicious. Vigorous vines give a long bearing season. Fine for home, market, freezing and canning. Triple size pkt. 23c; ½ lb. 55c; 1 lb. 85c; 3 lbs. 2.15, postpaid.

Improved GOLDEN WAX

Good Canner

116—(52 days.) This extra early wax bean is one of the best. Long, straight, waxy yellow pods absolutely stringless. Heavy bearer of delicious quality beans. Excellent for canning or pickles. An old favorite. Triple size pkt. 23c; ½ lb. 55c; 1 lb. 85c; 3 lbs. 2.15, postpaid.

SOUP BEANS

About SOUP BEANS. These are the beans you dry and shell for winter use and there is nothing finer. Grow like ordinary beans.

Plant 1 pkt. for 30 ft. row, 1 lb. for 150 ft. Every garden should have plenty.

SOUP BEAN Special

120X—We send you ½ lb. each of Navy and Red Kidney Beans. Both for only 85c, postpaid.

NAVY BEANS

The Old Standby

102—Best yielder of any of the dry or soup beans. Erect bushes keep pods off damp ground. Long uniform pods. Quality and flavor extremely good. Easy to grow and sure to yield. Triple size pkt. 22c; ½ lb. 45c; 1 lb. 65c; 3 lbs. 1.65, ppd.

Red KIDNEY BEANS

Favorite Soup Bean

128—This is the RED soup bean, similar to the Navy except for color. Easy to grow and a very heavy yielder of large, dark red, dry beans of good flavor and high quality. Triple size pkt. 22c; ½ lb. 49c; 1 lb. 85c; 3 lbs. 2.15, postpaid.

POLE BEANS

About POLE BEANS. These are like other pod beans, but climbers, so take very little space. Plant 4 ft. apart each way, then support on fence or trellis and they do the rest. Vines are attractive. Easy to harvest. 1 lb. makes 150 ft. row.

KENTUCKY WONDER

Old Homestead

134—(65 days.) This climbing variety is very vigorous and productive. Pods are green, often 9" long, nearly round, stringless and very crisp. Pleshy and brittle with fine flavor. Triple size pkt. 22c; ½ lb. 50c; 1 lb. 80c; 3 lbs. 2.00, ppd.

New PURPLE POD

Largest Pods

122—Grows like Kentucky Wonder, but larger and better flavored. Meat is thick and stringless. Pods are a beautiful, reddish-purple but turn light green when cooked. Triple size pkt. 25c; ½ lb. 60c; 1 lb. 95c, ppd.

LIMA BEANS

About LIMA BEANS. Plant after all frost danger is past and soil is warm. Plant seed 6 to 8 inches apart in rows 2 to 3 feet apart. Better try a few Limas this season. Treat all Lima Beans with Arasan (see page 27). Figure 1 lb. for 150 ft. row.

FORDHOOK BUSH LIMA

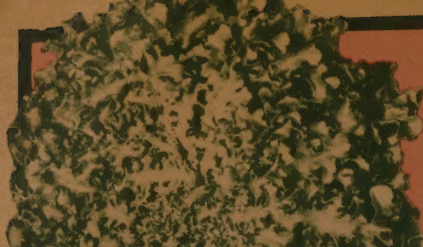

The Early Bush Type

126—(75 days.) The best large seeded variety. The pods are produced in large clusters, and about 5 inches long, each containing four to five large beans of fine quality. Grows very upright. Triple size pkt. 25c; ½ lb. 60c; 1 lb. 95c; 3 lbs. 2.15, postpaid.

New Improved BABY LIMA

For Freezing and Canning

129—(67 days.) Beans are bright green. Fine for canning or drying. Will stand hot, dry weather. Triple size pkt. 23c; ½ lb. 55c; 1 lb. 85c; 3 lbs. 2.15, postpaid.

Grow Plenty of LETTUCE

About Gurney's LETTUCE. Lettuce is available in two types—the leaf and the heading types. To assure tender leaf lettuce provide shade for it such as a screen of burlap bags. Sow leaf lettuce right in the garden row. The trick is sow as early as possible. Head lettuce should be seeded in a cold frame and plants put in the open early as possible. It must make heads before hot weather comes on. 1 pkt. plants 40 ft. of row.

New SALAD BOWL
One Head Fills the Bowl

503—An All-America Medal Winner. One head fills a salad bowl with a perfect rosette of tasty rich green. It is a loose leaf variety, grows fast and large. Leaves are short, closely set, waved and notched. Pkt. 20c; ½ oz. 45c; oz. 75c, ppd.

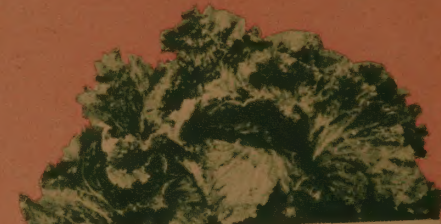

STONEHEAD
Thick-Heavy Headed

502—(78 days.) All of us like head lettuce, and our idea of a good head lettuce is the one that has a solid head, is compact and will stand hot, dry weather. Stonehead Lettuce is just that, and more. Pkt. 17c; ½ oz. 35c; oz. 65c, postpaid.

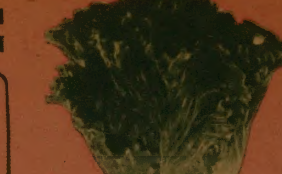

CRISP AS ICE
The Earliest Head Lettuce

501—(83 days.) One of the finest varieties of head lettuce grown. Extra early, but produces extra large, meaty heads, so allow plenty of room. Excellent flavor. Fine for early spring and summer. Pkt. 15c; ½ oz. 35c; oz. 65c, postpaid.

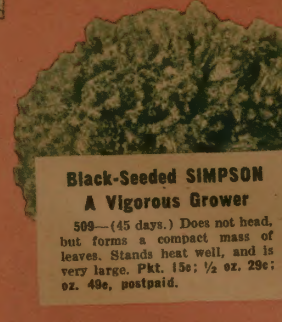

GREAT LAKES—A Prize Winner

500—(75 days.) Enjoy head lettuce at its best. A sure header, despite heat and sun. Gives an abundance of medium size, solid heads, with fine quality and flavor. Pkt. 20c; ½ oz. 35c; oz. 65c, postpaid.

GRAND RAPIDS
Best Leaf Lettuce

510—(45 days.) Its crisp, crinkly leaves are delicious. Light green in color. Grows very erect. Does not wilt and is disease-resistant. The earliest lettuce to grow. The home garden favorite of all. Pkt. 17c; ½ oz. 35c; oz. 65c, postpaid.

Black-Seeded SIMPSON
A Vigorous Grower

509—(45 days.) Does not head, but forms a compact mass of leaves. Stands heat well, and is very large. Pkt. 15c; ½ oz. 29c; oz. 49c, postpaid.

ROMAINE
Often Called Cos

505—This one grows with an upright plant. Leaves 8 to 10 inches tall, dark green with brown mid-rib. Blanching itself. The heart is greenish white, very tender and sweet. Doesn't get bitter. Fine for salads and garnishes. Pkt. 20c; ½ oz. 35c; 1 oz. 65c, postpaid.

GURNEY'S TENDER SPINACH

About Gurney's SPINACH—Grow your own health. Spinach is rich in vitamins and minerals. Plant early as possible. 1 Pkt. gives 25 ft. row—an oz. 100 ft. row. Use right after pulled and can plenty for winter.

NEW ZEALAND SPINACH
A Continuous Producer

211—(35 days.) Likes hot, dry weather. Gives a continuous supply of thick, tender, dark green leaves all summer long. Not a true spinach but mighty good. Pkt. 20c; oz. 35c; ¼ lb. 95c, postpaid.

Best STANDARD VARIETIES
Gurney's GIANT CABBAGE

The World's Largest

517—(105 days.) Think of it, 20 to 22 lb. heads are just regular size. It often grows heads weighing as much as 35 lbs. It is an excellent variety for making kraut. The heads are flat and the plants should have plenty of room to grow. Set them at least 3 feet apart. Pkt. 35c; 2 for 59c; ½ oz. 75c, ppd.

Combination CABBAGE OFFER

225X—1 Pkt. each of Danish Ballhead, Golden Acre and Premium Late Flat Dutch. All 3 packets for only 45c, postpaid.

Gurney's Are Famous For CABBAGE

About Gurney's CABBAGE. This is not another vegetable where seed quality counts as much as with cabbage. All of our strains are carefully selected to assure best quality. Start seeds 6 to 10 weeks ahead of outdoor planting time in the house, hotbed or cold frame. One pkt. will produce 400 to 600 plants. Space plants 18 in. apart in rows 2 to 3 ft. apart. If worms should happen to bother, use Gurney's Bug Dust.

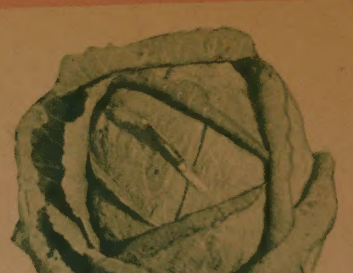

10% ALDRIN—To Control Soil Insects

5080—Use to control ants, corn rootworm, cucumber beetle, grubs, wireworm, flea beetle, cutworms, root maggots, etc. 1 lb. in sifter type can treats 1250 sq. ft. 1.15; 3 lbs. 2.25; 5 lbs. 3.25, postpaid.

EARLIEST OF ALL
Grows Anywhere!

515—(56 days.) This new extra-early cabbage produces the largest percentage of good heads. Heads are nearly round, medium-sized, and extra-solid. You'll like it. Pkt. 15c; ½ oz. 40c; 1 oz. 75c, postpaid.

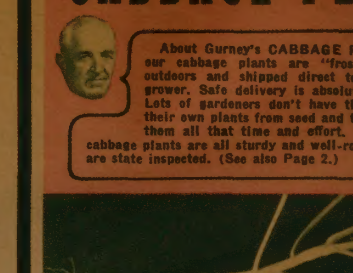

Premium Late Flat Dutch
It's Extra Large

535—(105 days.) For kraut or storage. The immense solid heads often weigh more than 20 pounds, and are white, crisp and tender. Good winter keeper. Pkt. 15c; ½ oz. 40c; 1 oz. 75c, postpaid.

JERSEY QUEEN

KOHL-RABI
The Aristocratic Cabbage

216—(55 days.) Here is a freak of the cabbage family. The edible portion of the plant might be compared with the heart of the cabbage head. It makes excellent salad material or it can be cooked like turnips. Milder than cabbage and has a distinct nutty flavor. The crop stands hot, dry weather. Start it real early in the spring or make seedlings the last part of July. Sow seed thinly and allow plenty of room for plants to grow. It's ready to eat when the bulge is about 2½ to 3" in diameter. Pkt. 20c; ½ oz. 35c; oz. 65c, postpaid.

CABBAGE PLANTS

About Gurney's CABBAGE PLANTS. All of our cabbage plants are "frost-proof"—grow outdoors and shipped direct to you from our grower. Safe delivery is absolutely guaranteed. Lots of gardeners don't have the time to start their own plants from seed and these plants save them all that time and effort. You'll find our cabbage plants are all sturdy and well-rooted. All plants are state inspected. (See also Page 2.)

Gurney's Garden BEETS

About Gurney's BEETS. Beets are sometimes called "doubleheader" vegetable because both the tops and roots are edible. Beets grow easily and will yield more food than most vegetables. Start the seed early, planting 1 oz. of seed to a 50 ft. row. A light frost won't hurt. Avoid heavy seeding. Thin out to four or five to the foot of row. Their "Thinnings" make good greens!

New CYLINDRA Beet The Perfect Shaped Beet

606—This beet has an entirely different shape than the common type. Note the picture at the left and you will see where it gets its name. This one is dark red, about 5 inches long, 1½ to 2 inches in diameter and perfect for slicing. Very smooth and of excellent quality. Pkt. 25c; 1 oz. 60c; ¼ lb. 1.45, pdd.

**3 BEST
BEET
OFFER**
200X—1 pkt. each of Perfected Detroit, Early Wonder, Detroit Dark Red, for only 44c, postpaid.

KING RED So Smooth and Uniform

608—(63 days.) This new beet is just as good as it looks. Very smooth skinned and exceptionally uniform. More round than Perfected Detroit. An excellent dark red interior that is uniform throughout. A fast grower and a very heavy yielder. Widely adapted. Has medium tops with glossy dark green leaf. Pkt. 20c; oz. 50c; ¼ lb. 1.35, postpaid.

PERFECTED DETROIT "All-America" Winner

602—(58 days.) A re-selected strain of Detroit DARK RED. Medium size and perfectly round. Rich, deep dark red with absolutely no white rings or side roots. Flesh is sweet, tender and of good quality. An excellent "all purpose" beet. Pkt. 20c; oz. 50c; ¼ lb. 1.25, postpaid.

DETROIT DARK RED "World's Champion" Beet

604—(60 days.) This dark red beet is early and the small tops and globe-shaped roots make it ideal for bunching. The flesh is very dark red with faint rings. Sweet and tender, too. One of the best winter keepers. Year after year its popularity grows. Pkt. 20c; oz. 44c; ¼ lb. 1.10, postpaid.

EARLY WONDER An Early Red Beauty

607—(52 days.) A beautiful smooth flattish globe shaped beet with small neck and tap root. The flesh is an intense dark red and very sweet and tasty. Very early and extremely uniform in size and shape. Good for bunching. Pkt. 18c; oz. 52c; ¼ lb. 1.25, postpaid.

MANGELS

About Gurney's MANGELS. Grow like beets except give them more room. Space rows 2½-3 ft. apart and thin out the seedlings to 8 or 10 in. apart in the row. Sow in April or May. Plant 1 oz. to 50 ft. row; 6 or 8 lbs. per acre. 15 to 20 tons an acre are common yields. Harvest before freezing. Ideal cattle feed and excellent green feed for poultry.

MAMMOTH LONG RED The Easiest To Harvest

619 — (110 days.) Very long and easily harvested as half the mangel grows above ground. They yield enormously—often 40 tons per acre. Individual roots sometimes weigh 20 pounds and are over 2½ ft. long. 1 oz. 25c; ¼ lb. 80c; ½ lb. 1.35, postpaid.

Gurney's Better RADISHES

About Gurney's RADISHES. Radishes are usually the first "new crop" from your garden. Ready in less than 4 weeks. The secret in growing good radishes is to seed them early in rich soil. One ounce plants a 100' row. About four times the thickness of the seed is the proper depth for planting. DO NOT SOW TOO THICKLY, or they'll get spindly. Have you ever tried fried radishes? They are a real treat. Slice thin and fry to a crisp brown. It's worth a try.

NEW CHAMPION An All-America Winner

460—(27 days.) Here is a clear, bright scarlet radish. It's a king-sized edition of Cherry Belle that will delight you. Fine quality, large size, not pithy. Fine for home garden use. Gives a longer season supply of delicious radishes. Pkt. 25c; oz. 65c; ¼ lb. 1.65; ½ lb. 2.95, postpaid.

SCARLET ICICLE You'll Like This One

438—(28 days.) An identical twin to the White Icicle, except this one is a deep attractive scarlet color. Has excellent quality, is crisp and a very good producer. Pkt. 20c; 1 oz. 35c; ¼ lb. 85c; ½ lb. 1.35, postpaid.

TWIN ICICLE OFFER

580X—This special offer contains 1 pkt. each of White Icicle and Scarlet Icicle. Both for only 29c, postpaid.

EARLY SCARLET GLOBE

Looks Good and Tastes Better

451—(24 days.) One of the very best radishes on the market. Earlier than any other market variety. The quality is so crisp and sweet that it always creates a demand for more. It is one of our most popular varieties. Pkt. 15c; oz. 35c; ¼ lb. 85c; ½ lb. 1.35, postpaid.

FRENCH BREAKFAST

Sweet and Tender

442—(23 days.) This fresh, crisp, oblong radish with its small tops has a brilliant scarlet color with a white bottom. The flesh is crisp, juicy, mild, sweet, and of splendid quality. Is a quick grower; especially popular for home gardeners and market. Pkt. 17c; oz. 35c; ¼ lb. 85c; ½ lb. 1.35, postpaid.

WHITE ICICLE Gardener's Favorite

448—(28 days.) White Icicle is the best early white radish. Fine for bunching. Flesh is pure white clear to the top and is crisp, juicy, mild and of a delicious sweet flavor. It remains mild and crisp long after maturity. Plant radishes every 10 days for best results. Pkt. 17c; oz. 35c; ¼ lb. 85c; ½ lb. 1.35, postpaid.

SPARKLER

Early Scarlet White Tip

444—(25 days.) This radish is one of our favorites. It is a deep scarlet color with a distinct white tip. It is almost completely round and doesn't get hollow. Has a sweet, crisp flesh, that stays fresh. You'll like this one. Pkt. 15c; oz. 35c; ¼ lb. 85c; ½ lb. 1.35, postpaid.

CHINESE ROSE The Winter Radish

454—(55 days.) Medium long, blunt and with a pink skin. Pure white, mild flesh. Excellent for bunching or winter storage. Sow seed in late July or early August. Pkt. 20c; oz. 34c; ¼ lb. 80c, postpaid.

CHERRY BELLE Early, Solid And Crisp

441—(22 days.) An All-America award winner. Round, smooth and cherry red. Flesh white, sweet, crisp and solid. Its earliness and extreme uniformity make it a popular market variety, and the leading home garden choice, too. If only one radish could be planted, Cherry Belle would be our choice. Pkt. 20c; oz. 40c; ¼ lb. 95c; ½ lb. 1.45, postpaid.

Now . . . Stop Maggots Use ALDRIN

It Absolutely Works!
5079—A most effective control for soil insects. For best results, use 1 lb. per 1250 sq. ft. and work into top soil. 1 lb. sifter can only 1.15; 3 lbs. 2.25; 5 lbs. 3.25, postpaid.

Gurney's GIANT CORN POP

HYBRID South American

New Yellow N-104

198—(105 days.) Developed by the University of Nebr. A 3-way cross much like K4 and P32 but better. Pops huge volume, strong vigorous stalks make a tremendous yield. Triple size pkt. 25c; 1/2 lb. 50c; 1 lb. 98c; 3 lbs. 2.35; 10 lbs. 6.95, ppd.

HYBRID WHITE HULLLESS

Our Finest White Popcorn

193—(95 days.) This very fine white popcorn is an exceptionally heavy yielder with lots of ears on strong stalks. One of the very best for tenderness and quality, with just enough hull to hold the kernel together. Triple size pkt. 25c; 1/2 lb. 65c; 1 lb. 98c; 3 lbs. 2.35; 10 lbs. 6.95, all postpaid.

CALICO POPCORN

Useful and Decorative

197—(100 days.) This corn has brilliantly colored ears which make fine fall decorations and pops well, too. The colors run from white through yellows, to blues and dark reds. You'll like Calico. Pkt. 25c; 1/2 lb. 60c; 1 lb. 1.00; 3 lbs. 2.45, postpaid.

About POPCORN. Nothing equals the combination of a bowl of popcorn and an apple.

Growing your own is easy—Rows 36" apart, seed 10" apart in row. Tend like sweet corn. Don't pick until well dried. Store on ear or shell and keep in cool place like back porch. Mason jars good for storing with lid not too tight. 12 1/2% moisture content makes corn pop best.

Hybrid popcorns outyield, stand drought better, pop bigger and have more flavor.

SALT and PEPPER New and Different Hybrid

192—(105 days.) Here is a cross between the South American Yellow and a White Hullless. Has long slender ears packed with mixed yellow and white kernels. Tremendous popping volume. The popcorn is white to creamy yellow. Remarkably free from hulls. 25c per pkt.; 1/2 lb. 60c; 1 lb. 98c; 3 lbs. 2.45; 5 lbs. 3.90, postpaid.

Delicious Corn for Popping

Nothing like a bowl of hot popcorn, lots of butter and a good book. Here's the finest popping corn available.

191 — Hybrid White Hullless Popping Corn. Big volume, practically hullless and delicious flavor, too. Be sure you try it. 4 lbs. for 1.65, postpaid.

They're Better Every Way . . . You'll Love these New HYBRID SWEET CORNS

About Hybrid SWEET CORN—Fresh sweet corn right from the garden plus tomatoes and fried chicken is a three-way combination hard to beat. Plant several varieties or make successive plantings a week or ten days apart so that you will have a long season of it. Gurney's Hybrid Sweet Corns are much better yielders, more uniform, and much better flavor and more tender than older types.

The yellow hybrids are the favorites and the Early Sun-glow is the pick of the lot both for immediate eating and for freezing.

Sweet corn is a fine first crop and then you can inter-plant second crops, such as squash and turnips. When the corn is all through, your next crop will be on the way.

A lot of people overcook sweet corn. It should never be left in boiling water more than three minutes. The sooner you can get it from the garden to the table, the better.

HOW TO FREEZE. Use only best ears. Husk and silk. Drop in boiling water for 3 minutes. Take out and put in cold water. Cool as quickly as possible and drain well. Cut kernels from cob with sharp knife or Gurney's "Kernel Kutter"; don't cut too deep. Put in tight container and freeze quickly.

HOW TO BARBECUE. Immerse freshly picked corn (husks on) in water 5 minutes. Have your charcoal broiler going and place the ears, husks and all on the grate. Turn about a quarter turn every few minutes until the outside husks are singed.

Husk with your gloves, the ears will be very hot. Strip the silks off with a damp cloth, salt and butter and you will have a real treat.

Now you can have more sweet corn for a longer period. We've picked out 3 varieties that we believe top all others. An early, a medium and a late variety to give you sweet corn over a 5 week period. The right combination at the right price.

1/2 lb. Early Golden Beauty Hybrid

1/2 lb. Carmelcross Hybrid

1/2 lb. Golden Cross Bantam

No. 155X

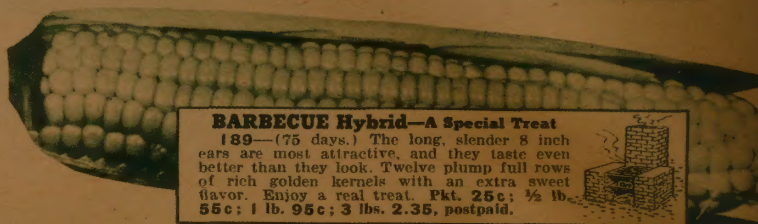

ALL 3 for only \$1.49 ppd.

THAT HAPPY LOOK!

This is Wally Flint Jr. of Yankton, S. D. and he is happy when he eats Gurney's sweet corn. Every fall, Wally deep-freezes some 50 or 60 dozen ears of Gurney's sweet corn and he says, "It's the finest I ever ate in my life."

Hybrid TRUCKER'S FAVORITE Big Ears—Heavy Yields

173—(70 days.) Produces very good roasting ears. Not a regular sweet corn but much harder and can be planted earlier. The ears are 8 to 10 inches long, usually two to the stalk. Very popular in the South among truck farmers where it outsells other varieties. Pkt. 25c; 1/2 lb. 45c; 1 lb. 80c; 3 lbs. 1.95, postpaid.

BARBECUE Hybrid—A Special Treat

189—(75 days.) The long, slender 8 inch ears are most attractive, and they taste even better than they look. Twelve plump full rows of rich golden kernels with an extra sweet flavor. Enjoy a real treat. Pkt. 25c; 1/2 lb. 55c; 1 lb. 95c; 3 lbs. 2.35, postpaid.

Regular OPEN POLLINATED Sweet Corn

The Favorite Old Fashioned Type

You still can have your choice of 3 of the most famous open pollinated corns on the market. Many still consider them superior in quality to the hybrids. These varieties, unlike the hybrids which ripen all on the same day, ripen their ears over 2 or 3 weeks. This means you can enjoy sweet corn over a longer period.

GOLDEN BANTAM Most Popular

177—(80 days.) The standard yellow sweet corn. Ears 5 1/2 to 6 1/2 in long. 8-rowed, deep kernels. Rich golden yellow. Tender, sweet and deliciously flavored. One of the best for your table. Triple size pkt. 19c; 1/2 lb. 49c; 1 lb. 80c; 3 lbs. 1.95, postpaid.

GOLDEN SUNSHINE The Early One

174—(76 days.) (not pictured) Ear is 12-rowed and 7 to 8 inches long with sweet, tender, kernels. Fine where summers are fairly cool and growing season is short. Triple size pkt. 20c; 1/2 lb. 45c; 1 lb. 80c; 3 lbs. 1.98, postpaid.

Stowell's EVERGREEN The Tender White

184—A popular late white variety for home and market use. 9 inch ears, 16 to 20 rowed. Sweet, tender, clear white kernels. This old reliable variety can be depended upon 100%. You can't go wrong with Stowell's Evergreen. Triple size pkt. 20c; 1/2 lb. 45c; 1 lb. 80c; 3 lbs. 1.95, postpaid.

OPEN POLLINATED

Sweet Corn Offer

180X — 1 Pkt. each of all 3 varieties at left. 49c, postpaid.

185X — 1/2 lb. each of all 3 varieties at left. 98c, postpaid.

Gurney's FASTEST TO GROW CUCUMBERS

About Gurney's CUCUMBERS—Cucumber seed should not be sown in open soil until weather becomes quite settled and soil warmed up. You can hurry germination by soaking seed overnight in warm water before planting. Plant 1" deep. 1 oz. sows 100' row; pkt. 35 feet.

The new hybrid cucumbers are tremendous growers. They grow all over the place and are very heavy yielders. The new Spartan Don outyields other varieties because 90% of the blooms are female (the bearing type).

Don't worry if some of the vine blossoms dry up and drop off. These are the non-bearing male blossoms.

Cucumbers, like melons, should not be too crowded in the hill. Use 4 or 5 seeds per hill only. Leave a little room between plants.

Our seed is of the finest strains and of highest germination only. Seed cost is small in relation to value of garden products. Always get the best.

BLACK DIAMOND

EARLY FORTUNE

SMOOTHIE

MARKETER

BLACK DIAMOND—For Early Shipping

359—(60 days.) Black Diamond is early, coming into bearing. An attractive dark green from end to end. Grows about 7 or 8 in. long, is cylindrical in shape with blunt ends. It is one of the finest cucumbers for small pickles or early shipping. Pkt. 20c; oz. 50c; ¼ lb. 1.15; 1 lb. 2.45, postpaid.

EARLY FORTUNE—Fine For Slicing

365—(60 days.) A most vigorous grower and resistant to disease. Yields tremendously. Long dark green with small seed cavity. Cucumbers measure up to 9 inches long. Flesh is white, crisp and very tasty. Use for small pickles, large slicers, market and shipping. Pkt. 15c; oz. 50c; ¼ lb. 95c; 1 lb. 2.65, postpaid.

SMOOTHIE—All America Choice

350—(63 days.) The new "All-America" slicing cuke. Its smooth, spineless skin and dark glossy green color adds to its tasty sweetness. Vigorous and heavy producing. Fine for salads and bread-and-butter pickles. Pkt. 25c; oz. 77c; ¼ lb. 2.15, postpaid.

MARKETER—Excellent Slicing Variety

366—(58 days.) This All-America Award winner produces fruit eight to ten inches long and two and a half inches thick. It is long and slim with fairly rounded ends. The flesh is a solid white with white spines and a rich dark green color. Fine slicer. Pkt. 25c; oz. 65c; ¼ lb. 1.25; 1 lb. 2.95, postpaid.

PUMPKINS

SO EASY TO GROW . . .

Pumpkins are easily grown. Are delicious for pies and profitable for stock feeding. Sow in May in good warm soil. 1 ounce for 25 hills; 4 lbs. per acre. Do best on rich, well drained, light soil. Gather before frost.

SMALL SUGAR—Finest For Pies

766—(118 days.) Smaller than Connecticut Field, but of finer grain, sweeter and very prolific. Pumpkins about 7 in. in diameter. Color is bright orange. Small Sugar is one of the best for pumpkin pies as the orange flesh is meaty and delicious. The original New England pie pumpkin. No better all-around variety. Pkt. 20c; oz. 30c; ¼ lb. 75c; 1 lb. 1.85, postpaid.

BUFF PIE—The "All Purpose" Variety

762—(110 days.) Large cheese or Buff Pie pumpkin. Buff-cream colored rind. Rich golden flesh. Rather flat drum shaped with slight grooves. Its brilliant colored flesh means you get very attractive and tasty pies. Also one of the finest varieties we know of for stock feeding. You can't go wrong with Buff Pie. So good that additional sugar, starch or coloring is unnecessary. Pkt. 18c; oz. 30c; ¼ lb. 65c; 1 lb. 1.65, postpaid.

MAMMOTH KING—The Biggest Of All

769—(120 days.) 100 lb. pumpkins not unusual with this tremendous variety. An enormous yielder. Flesh thick, bright orange, of real fine quality. If you want the biggest pumpkins you ever raised, Mammoth King is the one to plant. Pkt. 20c; oz. 30c; ¼ lb. 75c; 1 lb. 1.85, postpaid.

HALLOWEEN

Perfect For Jack-O-Lanterns

763—(110 days.) This new variety has especially deep, fine-grained flesh so sweet and such a rich orange-yellow color. Average about 8 in. across and they are ideal for Jack-O-Lanterns. Fine for cooking and pies, too. We consider this one of the best newer varieties on the market. Pkt. 20c; oz. 45c; ¼ lb. 1.15, postpaid.

SPECIAL PUMPKIN MIX

768—Kids like to raise pumpkins, grown folk too. This special mixture is made up of equal parts of all kinds. Pkt. 15c; 2 for 25c; oz. 30c; ¼ lb. 1.00, ppd.

SQUASH

Nothing more delicious baked, in pies or boiled. And there is always a profitable market for good squash. Grow in fairly loose soil and give plenty of room. Plant seed when soil is well warmed up. Keep free from weeds. One ounce plants 40 to 50 hills. To control disease and insects use Gurney's Bug Dust (see page 25).

Wanted Hubbard

Most Popular of All

745—(110 days.) They are large, oval-shaped, with a very hard, warty rind which makes them best as winter keepers. The thick yellow flesh is always sweet and dry when cooked. Pkt. 20c; oz. 35c; ¼ lb. 85c; 1 lb. 2.25, postpaid.

TABLE QUEEN

The Good Keeper

752—(80 days.) This is the perfect individual squash. Delicious, firm flesh that is very sweet. Fine for halving and baking. Cooks dry and mealy. A good keeper. Pkt. 20c; oz. 35c; ¼ lb. 85c; 1 lb. 2.25, postpaid.

BUTTERCUP

Thick Flesh

742—(100 days.) George says this is the finest of all. Extra fine flavor, thick, deep orange meat, and family size. Fine for freezing. Buttercup has been one of the favorite with gardeners all over America. Pkt. 20c; oz. 45c; ¼ lb. 1.25; 1 lb. 2.65, postpaid.

GOLDEN DELICIOUS—A Delicious Deep Gold

738—(102 days.) Its thick golden flesh is sweet and not watery. Fine for canning and freezing. Medium size 6 to 7 lb. squash. Good keepers. Pkt. 18c; oz. 35c; ¼ lb. 85c; 1 lb. 2.25, ppd.

BUSH SCALLOP—Early White

May be stored for winter use or some left in ground all winter to be used in early spring. Pkt. 18c; oz. 35c; 1/4 lb. 95c, postpaid.

RED CELERY

GIANT PASCAL

CELERY

A Favorite With Everyone

662—GOLDEN PLUME. (118 days.) Very early, a beautiful golden yellow and always crisp, tender, and stringless. Flavor distinctly nutlike and rich. It's easy to grow and so much better than "store-bought" celery. Pkt. 20c; 1/2 oz. 55c, postpaid.

661—GIANT PASCAL—The Giant. (140 days.) This is the largest celery grown. Stalks are very tall and heavy, and when blanched are yellowish white. Flavor is nutty and rich. The heaviest yielder. Best winter keeper. Pkt. 18c; 1/2 oz. 50c, postpaid.

663—RED CELERY—New and Different. (120 days.) Raise it like any other kind of celery. Has fine flavor but its outstanding feature is its red color which it retains during cooking. If you like celery in your stuffing, its bright color adds attractiveness. Pkt. 25c, postpaid.

208—CELERIC—Gives More Root. Large Smooth Prague. (120 days.) A variety with turnip-shaped roots used for seasoning soups, meats, and in salads. Pkt. 20c; 1/2 oz. 35c, postpaid.

ENDIVE

For Salads and Greens

234—(90 days.) Easy to raise and good to eat as greens or in salads. Makes large plants up to 16 in. across. When fully grown, tie over the outer leaves to blanch making beautiful creamy white heads. Eat like lettuce or cook like spinach. For summer use, sow the seed thinly in the early spring just as soon as the garden can be worked. Blanching is not necessary where the crop is going to be used for greens. Pkt. 18c; oz. 35c, postpaid.

ASPARAGUS

Mary Washington

200—Everyone likes Asparagus. We have plants on Page 17 but it is easy to raise from seed too. A well established bed will last a lifetime. Mary Washington is the largest of all and is rust-resistant. Is tender, rich flavored, and is not stringy. Pkt. 20c; oz. 35c; 1/4 lb. 95c, postpaid.

RHUBARB

Improved Flare

237—Large, thick, juicy stalks with a sweet, rich flavor. Especially good for pies and sauces. Easily grown from seed and produces abundantly. Appreciates good soil and will thrive for years. A pkt. sows about 20 ft. of row. Pkt. 18c; oz. 35c; 1/4 lb. 95c, postpaid.

SALISFY

Improved Mammoth Sandwich Island

205—(120 days.) Plant salsify and have delicious vegetable "oyster stew" all winter. Delicious baked or creamed. Has long slender roots. Flesh white, tender and sweet. Sow early, dig and store or leave in ground over winter like parsnips. Pkt. 18c; oz. 55c; 1/4 lb. 1.65, postpaid.

JUMBO SUNFLOWERS

Giant 20" Heads

239—(80 days.) This Russian type produces immense heads, often 20 inches in diameter. The seed can be eaten by humans (parching necessary) or used for bird or chicken feed. Pkt. 20c; oz. 30c; 1/4 lb. 50c; 1 lb. 95c, postpaid.

SUNFLOWER FEED FOR BIRDS

They Just Love It

240—Favorite of all. Birds go wild over it. 4 lbs. 1.59; 10 lbs. 3.20, ppd.
275—Wild Bird Feed. An ideal mixture of various seed the birds like. 5 lbs. 1.35; 10 lbs. 2.25, ppd.

PARSLEY

For Garnish and Seasoning

217—Champion Moss Curled. (70 days.) A beautiful curled variety, fine for garnishing and for seasoning soups and salads. Easy to grow in the garden or in pots during winter. Mostly used green, but leaves may be dried and kept for winter use. Pkt. 18c; 1/2 oz. 25c; oz. 45c, postpaid.

221—Hamburg Parsnip Rooted. (80 days.) Has the same flavor as regular parsley, but has small parsnip-shaped roots that are used for flavoring soups, stews, etc. Leaves are plain and can be used like ordinary parsley. Pkt. 20c; 1/2 oz. 25c; oz. 45c, postpaid.

BROCCOLI

Eat Creamed or For Greens

206—Spartan Early—Earliest of All. (70 days.) The finest early market and home use variety. Very uniform in size and shape. Matures early. Plants are short and compact. The central heads are uniform in shape and size, very compact, averaging about 6 to 8 inches in diameter. Pkt. 25c; 1/2 oz. 50c; oz. 75c, postpaid.

209—Italian Green Sprouting—Tender and Sweet. (70 days.) The light green, tender sprouts are delicious when creamed or used for greens. Sow early for a summer crop and follow with a midsummer seeding for a fall crop. Pkt. 20c; 1/2 oz. 35c; oz. 65c, postpaid.

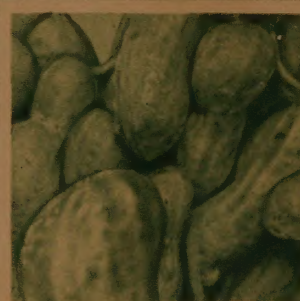

CAULIFLOWER

Grow Easy As Cabbage

223—SNOWDRIFT—Earliest of All. (70 days.) The finest early market and home use variety. Very productive. Sure to head. Has beautiful snowy white, uniform heads. Dwarf, compact grower. Short-leaved type. For main crop (fall) sow seed about 4 months before first anticipated frost. Let grow until heads are fully formed. Fine for freezing. Pkt. 25c; 1/4 oz. 95c; 1/2 oz. 1.75, postpaid.

215—EARLY PURPLE—Unusual and different. (86 days.) Another "different" vegetable. Tastes like broccoli except more mild. Heads are large, compact, and a beautiful purple. Fine for quick freezing. Truly something unusual and different. Pkt. 25c; 1/4 oz. 90c; 1/2 oz. 1.75, postpaid.

PEANUTS

It's Easy and It's Fun
SPANISH TYPE

The Hardy, Early One

219—We have been growing peanuts in South Dakota for a long time and this variety is early enough to ripen in a normal season. Nuts are small and of fine flavor.

With each order of peanuts, we send full instructions.

Peanuts are easy to grow, easy to roast, and easy to eat. If you don't think so, take a pan of homegrown peanuts, put them in the oven for about 30 minutes and eat while they are still hot. Triple size pkt. 22c; 1/2 lb. 45c; 1 lb. 75c; 3 lbs. 1.75, postpaid.

GURNEY'S

About Gurney's MUSKMELONS. Muskmelons are one of the easiest garden crops that can be grown and only ones grown in your own garden give you that perfect flavor you can't get from shipped in ones. 1 ounce of seed will plant 85 hills. A packet 30 hills. Plant 6 ft. by 3 ft. and cultivate well—they'll do the rest. Plant after ground is warm. Pick when it lets loose of stem easily. Grow plenty. You'll have a real treat.

Standard ROCKY FORD

Early Green-Fleshed

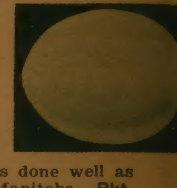

334—(88 days.) So sweet and luscious its green flesh can be eaten close to the rind. Fruits are oval-shaped, firm and solid. Weigh 1 1/2 to 2 lbs., slightly ribbed. Pkt. 17c; oz. 42c; 1/4 lb. 1.05; 1 lb. 2.55, postpaid.

SUNGOLD CASABA

One of the Hardest

340—This fine new variety matures in 85 days. We have grown it around Yankton and it does very well. Fruit weighs 6 to 8 lbs. at maturity. The quality is exceptional. This has done well as far north as Morden, Manitoba. Pkt. 25c; oz. 1.00, postpaid.

MUSKMELON MIXED

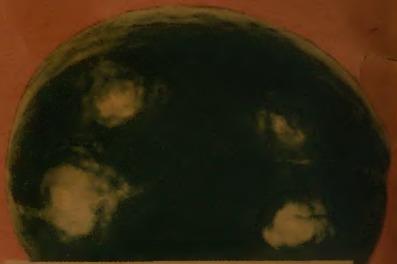

Our Finest Blend

331—The pick of our finest varieties. A special blend of Far North, Milwaukee Market, Honey Rock, Hale's Best, Golden Champion and Perfecto. Big pkt. 15c; oz. 40c; 1/4 lb. 1.00, postpaid.

Gurney's

About WATERMELONS—You'll forget shipped-in melons forever, once you grow your own. Easy to grow. Start when ground is warm. Figure 50 hills to an ounce of seed. 5 seeds to a hill which you thin later. Thump melon with finger and when it sounds hollow, melon is ripe. If you like, you can start seeds early in Jiffy Pots and set pot and all in garden when warm. Gurney's Bug Dust takes care of watermelon pests.

BLACK DIAMOND

Most Popular of All!

715—(90 days.) Black Diamond is the favorite for home and market use and most widely planted of all melons. Large, round, dark green and the 35 to 40 lb. melons are sure to please you. Flesh is bright red, crisp, sweet and of excellent flavor. Dark seeds. Pkt. 17c; oz. 50c; 1/4 lb. 1.25; 1 lb. 2.25, postpaid.

MARKET MIDGET

Small But Luscious

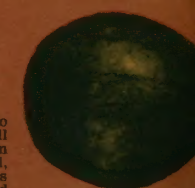

712—(69 days.) An improved New Hampshire Midget. This one ripened 4 days later. Weighs 3 to 5 lbs. Shell a little heavier. Stands handling and shipping better and can be stored. Fewer seeds and smaller ones. Just right for refrigerator! It has wonderful flavor, real sweet and can be grown anywhere in this part of the country. Be sure and try Market Midget. Pkt. 25c; oz. 1.00, postpaid.

Gurney's SEEDLESS

Absolutely No Seeds!

700—That's right. No seeds except a few small undeveloped ones—like in small cucumbers. Small, round size 8 to 10 inches in diameter. Deep red flesh. Averages 12 lbs. a melon and you have never tasted anything more delicious. We think this new melon is going to go a long way. Try it yourself. Pkt. of 10 seeds 50c; 2 pkts. 90c, postpaid.

339—(65 days.) A home garden favorite. Grows anywhere but especially fine for northern gardens. Four to five inch fruits on small vines. Salmon colored flesh of excellent quality. Very sweet and juicy. A heavy bearer. Pkt. 25c; oz. 65c; ¼ lb. 1.65, postpaid.

OUR MUSKMELON BARGAIN

275X—We send you 1 packet each of Standard Rocky Ford, Hearts of Gold and Hales Best. 3 choice varieties of muskmelon for only 45c, postpaid.

MILWAUKEE MARKET

Big and Sweet

337—(78 days.) This is the biggest, best flavored, early muskmelon for home use or market. Often weighs over 10 lbs. The sweet, spicy, golden flesh is sometimes 3 in. thick! Stands more heat, drouth and lack of care. Pkt. 20c; oz. 40c; ¼ lb. 95c; 1 lb. 2.65, postpaid.

Gurney's MAMMOTH

None Larger!

348—(95 days.) Truly a giant. Often weighs 14 to 18 lbs. Best thing about it is its fine flavor and good eating quality. One melon feeds a whole crowd. Flesh is a deep orange and very fragrant. You'll be proud to show the neighbors this one. Pkt. 25c; oz. 65c; ¼ lb. 1.40, postpaid.

SATICOY

Improved Hybrid Muskmelon

330—(80 days.) Genuine F₁ First Generation Hybrid. Melons are heavily netted, 7 inches long and about 6 inches wide. Weigh around 4½ to 5 lbs. Big, deep orange flesh, juicy—unusually fine flavored. Vines are vigorous and disease resistant. Pkt. of 40 seeds 50c; 2 pkts. 90c; ¼ oz. 2.15, ppd.

HALE'S BEST

Most Popular of All

333—(83 days.) Here is about the best all-around melon. Of wonderful quality, the salmon colored flesh is very thick, sweet, spicy and seed cavity is small. Hale's Best is heavily netted, and a good shipper. A favorite at roadside markets. Pkt. 20c; oz. 45c; ¼ lb. 95c; 1 lb. 2.65, postpaid.

GOLDEN CHAMPLAIN

Early and Sweet

341—(76 days.) Still one of the very earliest and one of the very best. It blossoms and sets fruit as soon as it starts to run. Has medium thick salmon flesh that is sweet and juicy. An especially good melon for home and local market. Pkt. 20c; oz. 43c; ¼ lb. 95c; 1 lb. 2.65, postpaid.

HEARTS OF GOLD

Deep, Gold and Sweet

345—(92 days.) An old favorite which seems to get better with the years. They are oval in shape with distinct ribs and netting. Medium early. Very productive—one of the best for roadside markets. Tasty, clear to the rind. Flesh is thick, deep salmon colored, sweet and solid. Pkt. 18c; oz. 42c; ¼ lb. 95c; 1 lb. 2.45, postpaid.

HONEY ROCK

Sweet as Sugar

336—(80 days.) Long a favorite of market and home gardeners. Has a unique coarse, gray netting. About the deepest, sweetest, firmest flesh you have ever tried and a beautiful golden-salmon color, too. This one is a dandy in any garden. Pkt. 17c; oz. 48c; ¼ lb. 1.10; 1 lb. 2.95, postpaid.

WATERMELONS

NEW "SUGAR BABY" WATERMELON

**Smaller
Sweeter
Crisper**

730 — (83 days.) This new, deliciously sweet, icebox type melon is the best one for northern planting areas. Just the right size for refrigerator. Melons are perfectly round and about 7 to 9 inches in diameter, enough for two. Has the brightest, reddest, crispest, sweetest flesh you've ever tasted. Has only a few small seeds. Should be a good seller and fine for home use. Pkt. 25c; oz. 55c; ¼ lb. 1.15; 1 lb. 2.95, postpaid.

MOTHER GURNEY'S ICEBOX OFFER
700X—1 packet each of New "Sugar Baby" and New Hampshire Midget for only 39c, ppd.

HYBRID Dixie Queen

Stands Dry Weather

723—(90 days.) Lots of big melons weighing from 35 to 50 lbs. Hybrid Dixie Queen can take dry weather and still stay in eating condition better than the ordinary Dixie Queen. Its hybrid vigor makes it disease resistant. Flesh is deep red, fine grained and free from stringiness; sugar-sweet and crisp, too. Ready to eat in August. Pkt. 35c; ¼ oz. 75c; oz. 1.95, postpaid.

NORTHERN SWEET

Earliest and Sweetest

714 — (70 days.) Melons weigh from 12 to 15 pounds and flesh is scarlet, very sweet and fine grained. Is a very heavy bearer, often producing 10 to 12 melons to a hill. Our really northern customers will always get under the wire with this fine melon. Pkt. 20c; oz. 40c; ¼ lb. 90c; 1 lb. 2.25, postpaid.

GOLDEN HONEY

The Big Golden Beauty

718 — (88 days.) Better flavor than most red fleshed ones. Its sparkling golden flesh and brown seeds give it an extra delightful appearance and it's one of the sweetest and tastiest you've ever eaten. You can't go wrong with Golden Honey Sweet. Pkt. 20c; oz. 49c; ¼ lb. 1.20; 1 lb. 2.25, postpaid.

EARLY KANSAS

Red Seeded Favorite

716 — (90 days.) One of the most widely planted of all watermelons. Is large, nearly round and has a beautiful dark green rind with lighter stripes. The melons weigh from 30 to 40 pounds apiece. Has rich red flesh of excellent flavor. A favorite at most midwestern markets. Pkt. 17c; oz. 49c; ¼ lb. 1.20; 1 lb. 2.25, postpaid.

New GOLDEN MIDGET

Tells When It's Ripe

731—(65 days.) No more guessing. You know, when it turns yellow outside, it is ripe inside. The fruit is 7 to 8 in. long and a perfect size for the refrigerator. Has rich, deep-red flesh and the sweetest of all. If you want to take away the worry of when your melons are ripe, plant Golden Midget. Pkt. 25c; oz. 75c; ¼ lb. 1.85, postpaid.

New Hampshire MIDGET

Small and Sweet

713—(65 days.) Perfect for the refrigerator. It's only seven to eight inches long. Sweet, rich flavor and crisp, red flesh. Very thin rind. Pkt. 20c; oz. 45c; ¼ lb. 1.25; 1 lb. 3.25, postpaid.

CONGO

Sweet as Sugar

704—(88 days.) Won the All-America Bronze Medal. Our customers who plant Congo always reorder the following spring. You'll have loads of 35 to 40 lb. melons with deep, red, sugar-sweet flesh. Ideal for market or home garden use. Pkt. 20c; oz. 45c; ¼ lb. 95c; 1 lb. 2.25, postpaid.

DIXIE QUEEN

Heavy Producer

722 — (80 days.) You'll get lots of 30 pound melons from Dixie Queen. The outside is a light green color with narrow dark green stripes. Its dark pink flesh is very firm and of nice texture. Almost melts in your mouth. Dixie Queen is dependable. Be sure you try it. Pkt. 18c; oz. 45c; ¼ lb. 1.15; 1 lb. 2.25, postpaid.

New SHIPPER

Try This New One

702—(75 days.) Here is a brand new melon which fits right in with our midwestern area. It will grow to around 30 lbs. in weight. The rind is a dark green and not too thick. Flesh deep red, crisp and firm. Yields high and the vines have a higher resistance to the troublesome wilt diseases. Pkt. 25c; oz. 50c; ¼ lb. 1.65; 1 lb. 4.25, postpaid.

Winter MELON

A Christmas Treat

717—(85 days.) In late fall when other melons are gone, go to the barn or strawstack where they are stored, get a big, round, Winter Watermelon that is so crisp it often splits wide open when you stick it with a knife. Flesh bright scarlet and of exceptionally fine quality. Sweet and delicious. Early, nearly white and will weigh from 15 to 20 pounds apiece. Pkt. 20c; oz. 50c; ¼ lb. 1.25; 1 lb. 3.25, postpaid.

EARLY CANADA

For Northern Areas

701—(75 days.) A very early melon. Firm, red sweet flesh of fine quality. Recommended for planting as far north as melons have ever been grown. Melons weigh 10 to 15 pounds apiece and have a beautiful, light green rind. You southern growers will be eating melons earlier with this variety too. Pkt. 18c; oz. 30c; ¼ lb. 65c; 1 lb. 1.95, postpaid.

GURNEY'S BEST
HEAVY YIELDING

ONIONS

About ONIONS. Sowing Onion SEED saves you money and is easy. Plant very early before hot weather in rows 14 in. apart, covering 3/4 in. Thin to 3" apart in row. 1 Pkt. sows 50 ft.; 1 oz. 250 ft.
Onion SETS are simply small onions, which give green onions the quickest of all, or grow to mature size, as you choose. Sets are of good storage varieties.
Onion PLANTS give quick, early, green onions or mature to full size, as you wish. Generally are "softer" varieties than the sets. When 3/4 onion tops fall down, they are mature for harvest and storage.

WHITE SWEET SPANISH Excellent Keeper

313—(115 days.) A fine, large, sweet white onion, many weighing up to one pound and over. Stores well over a long period of time. Very fine grained, of excellent quality and has mild, sweet flavor. Yields as well as the Yellow Sweet Spanish and keeps better than Bermudas. Excellent for northern sections. Pkt. 20c; oz. 85c; 1/4 lb. 2.25, postpaid.

Purple Top Yellow RUTABAGA

The Good Keeper

808—More of this variety is raised than any other. The roots are purple above and an attractive yellow below. The light yellow flesh is firm, sweet, and fine flavored and cooks to a bright orange color. Has large, smooth, cabbage-like leaves. Very productive. Will keep in fine condition until late spring. Pkt. 12c; oz. 25c; 1/4 lb. 60c; 1 lb. 1.45, postpaid.

Delicious!

EGG PLANT "Black Beauty"

657—A favorite in northern gardens because of its earliness, extra fine quality and a sure cropper. The fruit is large, oval, very deep purple. Pkt. 20c; 1/2 oz. 45c; 1 oz. 75c, ppd.

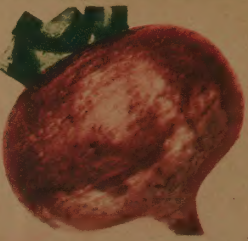

Gurney's TURNIPS

About Gurney's TURNIPS. Turnips are very easy to raise and store. Sow early varieties as early in spring as possible. Later varieties do best as a fall crop which is started the last part of July. 1 oz. of seed plants 150 feet of row, a pkt. 50 ft. deep. Thin to 5 in. apart in rows. Use 2 to 3 lbs. per acre. Cover seed 3/4" deep. Both store well in outdoor caves, a cool, dark basement or pit. Make sure there is adequate ventilation.

PURPLE TOP WHITE GLOBE For Extra-Fine Flavor

807—We consider this the finest table turnip on the market today, and also an immense yielder or rich stock feed. Sweet and tender from the time it is large enough to use until the following spring. Pkt. 20c; oz. 30c; 1/4 lb. 50c; 1 lb. 1.25, postpaid.

Purple Top STRAP LEAF A Good Freezer Turnip

806—Similar to Purple Top White Globe but flatter in shape. Grows 4 to 5 inches across. Has delicious flavor and is one of the most popular varieties grown. A fast grower and an excellent keeper. Suitable for freezing. Pkt. 15c; oz. 25c; 1/4 lb. 50c; 1 lb. 1.25, postpaid.

Extra Early MILAN TURNIP The Extra Early One

803—(40 days.) Similar to Strap Leaf but earlier. One of the finest turnips grown. Flat with purple top. Fine grained, sweet and very tender. If you want an extra early, extra fine turnip, this is the one you should plant. Pkt. 18c; oz. 30c; 1/4 lb. 55c; 1 lb. 1.35, postpaid.

For Seasoning Use GARLIC BULBS Nothing Takes Their Place

229—Garlic is always rather high in price and often you are unable to buy it when needed. Why not raise your own and supply your neighbors? Easy to grow. Separate the bulbs into small cloves. Plant, cultivate and store like onion sets. 2 bulbs 25c; 1/4 lb. 40c; 1/2 lb. 65c; 1 lb. 95c, postpaid.

Tender, Tasty BRUSSELS SPROUTS

Like Miniature Cabbage

225—Matures in 90 days. Looks like dozens of little cabbage heads alongside the stem. Wonderful eating. Heavy yielding and very easy to grow. This variety is an extra mild one and should do real well in your garden. Don't miss it. Pkt. 20c; 1/2 oz. 45c, ppd.

NEW GUINEA BEAN They're So Different

227—When beans are 8 to 10 in. long, prepare like egg plant. They are delicious. Pkt. 20c; oz. 35c, postpaid.

Grow Gurney's Giant Hybrid

BLUEBERRIES

About **BLUEBERRIES**. New blueberries big as marbles. You can grow the genuine Hybrid Blueberries in your own yard. For a long time we have been experimenting with blueberries and have found it possible to grow them in the midwest by adding a little aluminum sulphate to the soil to make it acid. We include this with your blueberry order. Set plants 6' apart both ways.

FINEST VARIETIES

Truly as big as marbles. Delicious in flavor. Berries ranging up to the size of marbles. Big, upright, shrubby plants growing to a height of 5 ft. or more. We only sell these in a collection of three, as several varieties of blueberries must be grown together to get a good set of berries. We are offering the newest and finest sorts of 3-yr. old plants. All 12 to 18" size. Some folks report amazing results from these fine varieties.

Gurney's NUT TREES for Pleasure and Profit

AMERICAN HAZELNUT

Big Crop and Beautiful Shrub, Too!

A-4115—This hardy Hazelnut produces large quantities of high-quality nuts every year. Makes a beautiful, well-branched shrub 5 to 6 ft. tall. Attractive enough to plant in your yard as an ornamental shrub. In the fall the foliage turns to a brilliant scarlet and bronze. A native of the Black Hills, eastern South Dakota, Minnesota and Iowa. We are offering one grade only this year. Strong two-year-old plants. 12 to 24 inch 98c each; 3 for 1.98; 10 for 5.69, postpaid.

Gurney's Nut Tree Bargain Saves \$1.83

A-2710X—2 each of Hazelnut—2 yr., Butternut 2-3 ft. and Black Walnut 2-3 ft. All 6 only 5.49, ppd.

Hardy PECANS

America's Favorite

A-4120—Here is a native-type nut tree that is very hardy. One of the most vigorous growers of all. You'll get fine quality, delicious tasting nuts plus a wonderful ornamental shade tree. Ours is the hardiest pecan that can be planted. Not recommended north of Yankton. 18 to 24 in. 1.69 each; 3 for 3.98, postpaid.

Gurney's BUTTERNUT

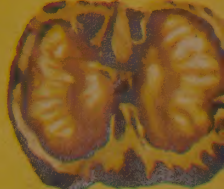

Delicious Buttery Flavor

A-4102—A cousin of the Black Walnut and one of the most popular and best eating of all. It bears large nuts with a rich, buttery flavor. Makes a fine tree and wood is of great value. Perfectly hardy in most all midwest territories. Plant where ground is usually moist. 2 to 3 ft. 1.29 ea.; 3 for 2.98; 3-4 ft. 1.49 ea.; 3 for 3.98, postpaid.

BLACK WALNUT

The Most Valuable Nut Tree

A-4132—Gurney's Black Walnuts are grown from seed produced on trees that have been native to our climate for over 60 years—trees that can withstand tough conditions without damage. You'll get heavy crops of large, fine-flavored nuts. Mature trees often bear from 15 to 30 bushels. 2 to 3 ft. 1.39 each; 3 for 3.89, postpaid; 3 to 4 ft. 1.69 each; 3 for 4.89, postpaid.

Gurney's FRUIT TREES

Why Gurney's Fruit Trees Do Better For You

ORDINARY FRUIT TREE

GURNEY FRUIT TREE

EXTRA HARDY: Gurney's are famous the country over for their extra hardy, NORTHERN GROWN FRUIT TREES. When trees survive our northern conditions, they will do well anywhere—a must for northern planters and better for southern planters. Beware of southern grown trees—often budded on tender rootstock which will not survive hard winters or drought.

EXTRA STURDY: Our soil is famous for growing sturdier, heavier-rooted, better branched trees. See why Gurney trees are a better buy in picture at left.

ABSOLUTELY TRUE TO NAME: Nothing is more disappointing than to buy and raise a fruit tree and find it bears wrong fruit. This won't happen at Gurney's. Experts check at every stage to insure you get what you order.

"WHOLE-ROOT"-BUDDING: Gives better trees—see illustration at right.

GURNEY'S FRUIT TREES ARE 4-WAYS BETTER.

Common Fruit Graft

A common fruit graft uses only a piece of root—often resulting in a non-hardy, poor tree. Don't take a chance on getting this non-hardy stock. Order from Gurney's.

Gurney's "WHOLE ROOT" BUDDING System

An entire root system (not just a piece) is used to "bud-on" the desired fruit variety in Gurney's system. This makes for harder, healthier, faster-bearing trees to withstand hot summers, dry winters.

Gurney's DELUXE GRADE FRUIT TREES

★ Finest Trees Money Can Buy. ★ All Redi-Pruned for Planting. ★ Absolutely Guaranteed. ★ All Postpaid to Your Mailbox. ★ All Have Permanent Labels.

Gurney's DELUXE GRADE Guarantee

Every Gurney Deluxe Grade fruit tree is guaranteed, if properly cared for, to be in vigorous growing condition one year from planting or will be replaced once absolutely free.

For Those Who WANT and DEMAND the FINEST

Every Gurney Deluxe Grade fruit tree is a carefully selected, jumbo-size, perfect specimen that will come into bearing early. All are well-branched, with a straight trunk and an extra-heavy root system.

We pre-prune the trees before shipping and this reduces their length enough so that we can send them right to your door, and we pay the postage. This not only insures proper pruning but saves you over \$2.00 per shipment, compared to express collect shipments. Now more than ever it pays to plant Gurney's Deluxe Grade.

CHECK ALL OF THESE DELUXE GRADE EXTRAS

- Every tree is top-quality, well formed. You cannot buy a finer tree at any price—anywhere.
- Every Gurney Deluxe Grade tree is fully guaranteed to live.
- Variety is shown on a permanent label.
- Tag gives you easy-to-follow planting instructions.
- No pruning necessary at planting time. Deluxe Grade comes to you redi-pruned for sure results.
- Ring around trunk shows proper planting depth.
- Every Deluxe tree is wrapped in polyethylene film to prevent moisture loss. Doubly protected because it's shipped to you in poly-lined Kraft paper.

Use Less Space—Less Care Needed With DWARF FRUIT TREES

About DWARF FRUIT TREES. Dwarf fruits are becoming more popular year after year. Modern ranch type and bungalow homes make ideal setting for dwarf tree use. Dwarf's add an ornamental touch when blooming plus tasty fruit in season. Carefully grown to give complete satisfaction and hardiness except in extreme north.

WILL BEAR EARLIER—These gemling dwarf fruit trees often bear the second year after planting. They take so little space that everyone has room.

SO EASY TO PICK—You don't need a long ladder to pick the fruit from Gurney's dwarf fruit trees. You harvest with both feet on the ground.

MORE VARIETIES TO CHOOSE FROM—You can plant four or more dwarf trees in the same area that one regular fruit tree would occupy.

DWARF APPLE TREES

These have been propagated with interstem grafts so mature height is only 8 to 10 foot tall.

A-1122—CONNELL RED. Bright red, large size fruit, with a distinctive flavor.

A-1121—HARALSON. Bears early and lots of big juicy fruit.

A-1133—PRAIRIE SPY. A high quality winter-keeping apple with good deep red color.

A-1130—RED DELICIOUS. Most famous sweet, red apple. Fruit is delicious.

A-1136—YELLOW DELICIOUS. Extra large in size with extra quality fruit. Not recommended north of Yankton.

A-1138—WEALTHY. Best of all fall apples. Your choice of Above: 4 to 5 foot size, 3.98 each, postpaid.

DWARF CHERRY TREES

A-1339—NORTH STAR. A fine new dwarf cherry that bears a fine annual crop of delicious fruit. The cherries are dark red, large and of wonderful flavor.

Quick Fruiting—Best Tasting

These 2 old standbys have been with us for a long time because you just can't find anything better in size or quality. We like them both and think you will too.

✓ **A-1410—ELBERTA**—The Old Standby. A large freestone with tender flesh, firm skin. Ripens first week of September. Excellent shipper, good canner. Probably more people are familiar with this variety than any other peach on the market. Its delicious flavor makes it "tops" on the peach parade.

✓ **A-1420—HALE HAVEN**—The Heavy Yielder. A fine freestone. Growing in popularity every year. Self-pollinating, ripens 15 days ahead of Elberta. Second only to Elberta in commercial orchards but deserves a place in your orchard if you like a delicious, easy-to-grow peach.

PEARS

About Gurney's Hardy PEARS

Geo. Says: Pears are the tastiest of all fruits for home plantings. Only when you can pick from your own trees can you have the full flavor, aroma and a real taste treat.

Pears can be grown in any soil that is well drained. Pruning and training are similar to that of apple. They grow upright, so can be planted as close as 14 to 15 feet apart. No other fruit compares with pears in aroma, lusciousness, or range of flavors. Plant at least 2 pears of different varieties for the sake of cross pollination.

Prune pear trees severely at planting time. Cut all side branches back to within 2 buds of the main trunk and then remove at least ½ of the top growth.

ABOUT PLUMS—Plums have been a Gurney specialty for over 90 years. We offer the most complete choice anywhere and each one is the best of its kind.

We are one of the very few who bud plums on absolutely VIRUS-FREE rootstock and with the help of college authorities maintain our own virus-free seed orchard. (Beware of southern plums because many are budded on peach stock which is not hardy.)

George's 2 Favorites

If I could only have 2 plums in my yard these would be the 2. The Idaho Prune has delicious fragrance and mouth watering taste. Tecumseh is a twin in quality.

A-1612—IDAHO PRUNE—Best Prune For The North. Large, delicious blue prunes with firm flesh of fine quality. Excellent for canning or eating fresh. Cooks up into fine wine-red sauce.

Stands our rigorous winters and still produces good crops. Idaho Prune was introduced by us and is the only prune we feel worthy of listing in our catalog.

A-1634—TECUMSEH—Extra Hardy and Early. One of Dr. Hansen's best, and probably the best-eating plum in our whole list. Ordinarily ripens in August. One of the earliest bearing of all, and hardy clear up into Canada. The fruit is a bright red with bluish bloom. The flesh is yellow, firm, juicy and sweet, and has a delightfully appetizing flavor.

Get Fruit First Year After Planting

Hybrid SAPA

Bears First Year

A-1631—Black outside and clear to the pit. It has a sweet flavor you can't forget and bears immense quantities annually. Ripe the latter part of July. Bears the first year after planting. Very hardy. Has deliciously sweet juice. You'll enjoy it year after year. Be sure and plant one or two of these trees if you want loads of luscious fruit.

Hybrid KAGA

The Apricot Flavored Plum

A-1620—A deliciously flavored plum with an appetizing fragrance. Medium-size, heavy producer, and bears very early after planting. Very hardy, a cross between a native wild plum and the very fragrant Chinese Apricot. A good pollinizer and a variety that will produce plenty of plums for canning, preserves, and delicious eating right from the tree.

Waneta was originated by the late Dr. N. E. Hansen. Bears early September.

A-1632—SUPERIOR—Largest Fruit of All. One of the best quality hybrid plums. Grows fast and bears young, usually the first year after planting. Ripens from August to September. A heavy bearer of unusually big, yellowish fruit which turns pink and then a deep, rich red. Peels like peaches and the firm, juicy flesh is of high dessert quality. Hardy in southern S. Dak., Iowa and like climates.

STRAWBERRIES

About Gurney STRAWBERRIES. No fruit is easier to grow, yields more heavily or more quickly with less space and less trouble than strawberries. 50 plants in an area the size of a blanket can often yield 50 quarts of fruit. Strawberries should be planted in full sun.

Set the plants 12 to 18 inches apart in the row with rows 3 ft. apart. Give a little cultivation and care and you will be rewarded many times over. Stretch your fruiting season by planting both Junebearers and Everbearers. Our plants are all inspected and absolutely virus free—the finest money can buy!

PLANTING DEPTH IS IMPORTANT

TOO DEEP **TOO SHALLOW** **JUST RIGHT**
ABOUT JUNEBEARERS. If you like strawberries for canning or freezing—plant Junebearers. They produce the crop in a few weeks and it's a big one too. This means you can get that canning and freezing done all at once.

ABOUT EVERBEARERS. This type bears a good crop early and a second crop late in the season. There is always some fruit on the plants. This makes them ideal for the home gardener.

APPLES

Grow Your Own
Fruit In Your
Own Backyard

About Gurney APPLES. We here at Gurney's have for a long time (over 90 years) grown the finest apple trees money can buy. There is no guess work in our growing. We use only the very hardy Pyrus Baccata rootstock from our own seed orchard. Nothing is finer, hardier or better for the northern or southern planter. The general effect of this Siberian hardy rootstock is to: 1. Make Gurney trees bear much earlier (some even bear in our nursery rows). 2. Makes Gurney trees slightly more dwarf for easier picking and easier care.

Gurney's have been headquarters for HARDY Apple Trees for over 90 years. When we say it is hardy—it is!

Gurney Trees CERTIFIED TRUE TO NAME

We take great care and pride in seeing that you get exactly what you order. All our apple and pear trees have been inspected by Mr. A. E. Cott, Ames, Iowa, of the Iowa Trueness to Name Identification Service and are Certified Absolutely True-To-Name.

HOW TO PLANT APPLE TREES

Set apples 25 to 35 feet apart. After planting, prune back side branches to within 3 buds of main trunk and cut off one-fourth of the main lead. Each year, prune injured limbs only. Northern growers do better letting their trees grow in bush form, where bottom branches grow to within 2 to 3 ft. of the ground. Send for free pruning bulletin.

APPLE BEARING CHART

Harvest Apples: Lodi (Imp. Yellow Transparent), Red Duchess, Anoka. Fall Apples: Wealthy, McIntosh, Minn. No. 724. Winter Apples: Haralson, Jonathan, Northwestern Greening, Prairie Spy, Delcon, Red Delicious, Yellow Delicious, Connell Red, Redwell and Cortland.

DELCON DWARF

Perfect For The Small Yard

A-1014—An apple tree tailor-made for the small lot. Delcon normally does not get over 12 feet tall, (so easy to pick) yet bears loads of beautiful, delicious, dark red, full-sized apples shaped like Delicious. The flavor has all the best qualities of two of its parents, Jonathan and Delicious.

It is a single-graft, true dwarf. Much less expensive than \$4.00 multi-graft dwarfs, yet better.

Gurney's CRAB APPLES

For Fruit and Beauty
(see prices at left)

These small fruited types of apples are the favorites for jellies and sauce. Beautiful when in blossom too.

A-1107—WHITNEY CRAB. The old favorite. Good if eaten fresh, the best for pickling. Fruit is large, sweet and juicy. Color is yellow with lively red stripes. Hardy, vigorous and a heavy bearer.

A-1017—DOLGO CRAB. Best Fruit. This is the best for jelly. Its glistening crimson fruit makes a clear, sparkling red jelly. Fruits on 2-year-old trees. Hardy.

A-1011—CHESTNUT CRAB. It's new. Children love this fine new crab because of its size, bronze-red color and wonderful flavor. Fine for the school lunch box.

A-1008—CENTENNIAL. Very Showy. A fine new dual purpose crab from Minn. Lovely snow-white blossoms followed by loads of bright red tasty fruit.

"CONNELL RED" Apple The Patented Apple With Everything

A-1012—Connell Red is solid bright red in color, is large sized, and has a very distinctive flavor. Excellent for eating as well as mild flavored for sauce or salads. The tree is hardy, fruit hangs on well, yet is easily picked. Good keeper.

GURNEY'S FAMOUS 5-in-1 Apple Tree

A Whole Orchard On One Tree

Not an ordinary 5-in-1 apple tree, but one with 5 hardy, northern varieties. Each tree will produce Red Duchess, Lodi, Wealthy, Haralson and Prairie Spy. Good from Yankton north, better than ordinary varieties from Yankton south. Each apple bears in its own season, giving you a whole orchard from one tree. Now even the smallest yard can have an orchard. All are 5 to 6 ft. trees, 3 years old and postpaid.

A-1115—5-in-1 Apple, 3.98 each; 2 for 7.69.
A-1114—3-in-1 Apple, 2.98 each; 2 for 5.69.

For Home or Commercial Growers Gem—Bears Longer, Stands Drouth

B-4112—We have grown and sold the "Gem" for many years, and year after year our customers write us how vigorous it is, how it bears big, red, juicy strawberries so heavily, even in years of drouth. Gem bears all summer long. For commercial growers or home gardeners, Gem is one of the best.

OGALLALA—Red All The Way Through

B-4122—Here is the most delicious of all the everbearing varieties. Has large berries that are red all the way through with sweet, aromatic flavor of the wild strawberry. Superb for eating fresh and unusually fine for freezing and preserves. For best results, limit the new runners to 4 or 5 for each original plant.

ANOKA

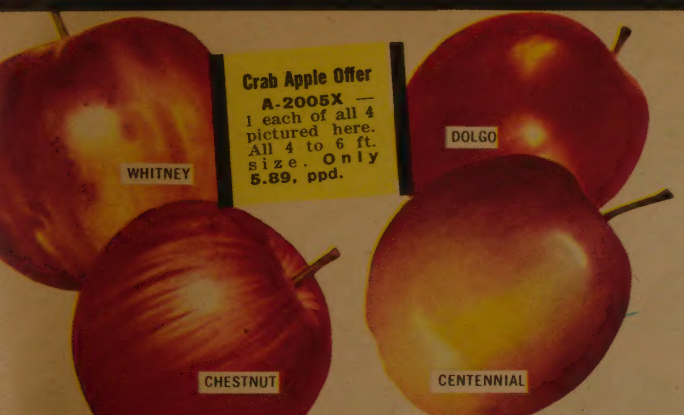

Often Fruits First Year

A-1000—Everybody plants Anoka. The earliest bearing apple that we know of. Little 2-yr. trees in the nursery often bear several red striped apples. Good quality and the juice is rich. Anoka is extra hardy and medium sized. Our most popular summer apple.

LODI

Improved Yellow Transparent

A-1054—One of the earliest ripening apples of all. Ripens right after early harvest. An excellent eating apple and "what apple pies you can make with it!" Bears immense crops of yellow, thin-skinned apples just "tart" enough for the best sauce and pies.

Crab Apple Offer

A-2005X — 1 each of all 4 pictured here. All 4 to 6 ft. size. Only 5.89, ppd.

2 Hardest FALL APPLES \$2.69

(To Order Individually—See Prices on Page 20)

Gurney's WEALTHY Best Known Fall Apple

A-1105—This is too well known to need description. Has pale yellow skin almost hidden by brilliant red stripes and white juicy flesh. Fine for pies. Wealthy is hardy and a leader of orchard apples for the north. If picked early and properly stored will keep until Christmas.

McINTOSH RED An Old Favorite

A-1061—To many, the finest flavored apple we list. Beautiful red apples often with darker red blush, fragrant and of highest quality. A fall apple which will keep well into the winter. One of the most dependable bearing of all apples.

3 FAVORITE OLD-FASHIONED APPLES ONLY \$4.98

A-2004X—1 Each of All 3 Pictured At Right, 4 to 6 Ft.
(To Order Separately—See Prices on Page 20)

Long Time Favorite Varieties

You can depend on these 3 varieties to furnish you with lots of apples for eating fresh, canning, cooking, etc. All heavy bearers. Choose from the following: See individual prices, page 20.

A-1065—NORTHWESTERN GREENING. Very large. An AT-TRACTION winter apple, with smooth, waxy, clear pale yellow skin with a slight greenish tinge. Flesh is crisp and mild. One of the largest apples you can grow with apples measuring sometimes as large as 5" or more across. Known for its good keeping ability.

A-1045—JONATHAN. Good For Eating. An excellent winter apple for every use. Red, juicy and "snappy" when eaten out of hand. Wonderful baked or in pies, and it keeps well without special care. Doubtfully hardy north of central Iowa.

A-1019—All Red DUCHESS. Very hardy. If you like the old Duchess of Oldenburg, you will go for the new Duchess in a big way. It ripens its juicy red fruit throughout August. For those delicious apple pies and sauce, you'll find this variety hard to beat. First degree of hardness.

Pictured Apple Offer

A-2006X—5 selected varieties for your home planting. We send you 1 each of all 5 pictured above. **\$6.98** Post Paid All 4 to 6 ft. size.

George's 3 "All Red" Favorites

Everyone loves a dark red apple and here are 3 of the best. You'll thank George many times over when you start picking apples from your own trees. See individual postpaid prices on page 20.

A-1090—MINNESOTA 724. New and Better. If you like the old favorite McIntosh, you will enjoy this new variety. A fine red apple that is excellent any way you use it. Delicious fresh from the tree or the best sauce you ever tasted.

A-1009—CORTLAND. Very Crisp. A most attractive large bright red apple. Very crisp and tender with rich flavor. Excellent for eating and cooking and a good pollinator. Hardy to southern Minnesota. One of the best winter apples.

A-1078—REDWELL. Reddest of All. This is a beautiful apple of a very high red color. Very good flavor. Good for eating and cooking. The tree is exceedingly hardy. An annual bearer with the ripening season in the middle of October. One of the very best for northern orchards.

CHERRIES

Grow Plenty for Fruit

About Gurney's CHERRIES—The ideal fruit for every home. They don't mind being surrounded even with a heavy sod, so are perfect for lawn or orchard. However, cultivate if you can. They give you shade, blossoms and loads of fruit for fresh pies, canning and freezing with little care.

They're a tidy tree so can be set 18 ft. apart each way or 130 trees per acre.

GURNEY'S CHERRIES BETTER

Gurney's cherries have the EXTRA-PROTECTION for you of being budded on VIRUS-FREE Mahaleb Rootstock. This gives you longer-lived trees and EXTRA HARDINESS. Beware of trees with ordinary rootstock.

Gurney's Fruit Spray (Page 25) is all you need to keep your tree free of disease or insects. Plant several kinds of cherries for plenty of fruit.

NORTH STAR

New Dwarf Pie Cherry

A-1338—Lots of big Morello-type free-stone cherries on super-hardy dwarf trees. Actually grow only 5 to 7 feet tall so give you lots of fruit in small space and extra easy to reach.

Its glistening deep red cherries make luscious pies and sauce. Bear good crops each year. Self-pollinating, too.

We feel certain that North Star is destined to become one of the most popular of all cherries. It has all the good features a cherry should have. See postpaid prices at left.

METEOR

New Hardy Pie Cherry

A-1332—At last a hardy pie cherry for all northern planters. Developed by the Minnesota Fruit Breeding Farm. It has produced a crop of fine cherries every year. Last year our trees here at Yankton were loaded with fruit, and the nice part of it—you could pick most of them while standing on the ground.

The fruit is as large as Montmorency, bright red in color, and of very good quality. Mildly acid in flavor and a real treat for all who enjoy pie cherries as a dessert. See postpaid prices at left.

MONTMORE

A New Early Bearer

A-1335—This improved, dwarf-sized Montmorency often bears the first year. Only grows about 10 to 12 ft. high (fruit is easy to reach) but it still produces a full-size crop. Also larger and of a better quality. It is darker—black red. Will bear anywhere from Missouri as far north as cherries grow.

Everyone likes a cherry that fills up the basket fast and that is just what Montmorency will do. We have had many compliments on Montmorency, and we are sure you'll be mighty happy with it, too. See postpaid prices at left.

GRAPES

See Illustrations on Opposite Page

About GRAPES—Grapes can be grown on a fence, or to shade an arbor for you, or in a vineyard—but, no matter where you use them, they give you tremendous amounts of fruit for your table, for jelly, jam and juice of a quality store grapes can't equal.

Gurney plants are all strong, extra heavy plants to give you quick results. Often yield second season. They are well-rooted and all varieties are exceptionally hardy, wintering in severe conditions. In vineyard, plant 5' to 8' apart in rows 6' apart. After planting, cut back to 3 or 4 buds. Put up support 2nd year. Full directions included.

FREDONIA

King of Blacks

A-3125—Fredonia is very early, in fact, three weeks earlier than Concord. Very hardy, a very heavy producer and a vigorous grower. The bunches are compact and the berries really have the most wonderful flavor—you'll be mighty happy with a few Fredonia. 1 Yr. No. 1 Plants. 69c each; 3 for 1.69; 6 for 2.98; 12 for 5.49; 25 for 7.98, postpaid.

NIAGARA

Best White

A-3139—Niagara is the leading favorite in "white" grapes because the large fruit has such a delightful flavor. The vine is hardy and extremely productive. Does very well here at Yankton. Your grape arbor should contain at least 6 Niagara. 1 Yr. No. 1 Plants. 69c each; 3 for 1.69; 6 for 2.98; 12 for 5.49; 25 for 7.98, ppd.

BETA

Hardest of All

A-3104—Here's a tame grape with the tang of the wild. Best for the north, for it is fast (15 to 20 ft. in 1 yr.) in growth and hardest of all. It produces large quantities of fruit that is almost black... juicy... fine for arbor. No winter covering needed. 1 Yr. No. 1 Plants. 69c each; 3 for 1.69; 6 for 2.98; 12 for 5.49; 25 for 7.98, postpaid.

RED CACO

Big Clusters

A-3110—The sure-crop red grape. Always bears big clusters of rich red grapes, even in hottest summers. Makes most beautiful jelly. As Concord is the most popular of the blue-black grapes, so Caco is the most popular of the red grapes. 1 Yr. No. 1 Plants. 69c each; 3 for 1.69; 6 for 2.98; 12 for 5.49; 25 for 7.98, postpaid.

CONCORD

The Old Favorite

A-3111—The most popular grape in the United States. Matures early, keeps well, ships well and sells well. The berries are in enormous bunches and are blue-black, juicy and delicious. Great for grape juice. 1 Yr. No. 1 Plants. 59c each; 3 for 1.49; 6 for 2.69; 12 for 4.89; 25 for 7.49; 100 for 24.95, postpaid.

BUSH CHERRIES

Shrub Size—More Fruit

About BUSH CHERRIES—Bush cherries give you "double-barreled" pleasure. FIRST: They make handsome ornamental shrubs for lawn or border, loaded with bloom in spring and nice shape all year. Second: They give you fine fruit for pies, sauce and canning. They grow 4 ft. to 10 ft. high depending on variety. Can be kept to any height by shearing. Very hardy. The hybrids are especially fine with larger (though not more succulent) fruit. Often used in windbreaks.

These are Gurney's selections from millions of seedlings grown and selected over many generations. All are very hardy and the finest you can buy.

Hybrid NANKING CHERRIES

Most Outstanding

A bush cherry far superior to the western kind. Fruit is about the size of Early Richmond and is wonderful for pies, canning, preserves or jelly. The cherries are a deep red, with firm, tender, sweet flesh and small pits. Will grow to height of 8 feet, but can be kept down to 4 feet by pruning.

Hybrid BUSH CHERRIES

Extra Large Fruited

Much larger and tastier fruit than the old Bush Cherries and better growers. Can grow to 6 ft. if not pruned. 18 to 24 in. 1.69 ea.; 3 for 4.69, ppd. Choose from following:

A-1351—BROOKS. Dark red fruit, almost as large as regular cherries. Bears heavily the second year.
A-1350—BLACK BEAUTY. This is the newest selection of the bush cherry. The fruits are very dark, glossy, black maroon-red. Almost as large as tree cherries. Fruit red from skin right to the pit.
A-1352—SIOUX. Extremely large cherries—3/4" or better across. Purplish-black, shiny and greenish flesh. Juicy and sweet.

NANKING CHERRY

Has Beautiful Foliage

A-1364—Here's a beautiful flowering cherry that provides an abundance of fine flavored, high quality fruit. Fruit is red, juicy and delicious. Fine for canning and pies. Grows to 6 ft. 18 to 24 in. size 1.19 each; 3 for 2.98, postpaid.

Gurney's Giant RED-FLESHED
A-1355—Oka Cherries. You've never seen more giant (plum-sized) fruit on one bush cherry. Dark purplish-red skin and flesh. Grows 4 to 6 feet tall. 2 to 3 ft. 1.69; 3 for 4.49, postpaid.

KOREAN BUSH CHERRY

A-1360—(Pr. Japonica.) Hardy compact shrub 4 to 5 feet tall. An abundance of large, rich red cherries. Fine for jellies and preserves. 18 to 24 in., 1.19 each; 3 for 3.29, postpaid.

Hansen's Improved BUSH CHERRIES

Most Popular Bush Type

A-1359—The miracle plant that grows like a bush and is covered with blooms from one end to the other. A beautiful ornamental shrub, grows from 4 to 5 feet high. This improved strain of the original Hansen hardy dwarf bush cherry yields almost as much fruit as a plum tree and there is no waiting for it to bear. Loads of large clusters of nearly black cherries the second year after planting!

NATIVE FRUITS

There Is No Substitute

About NATIVE FRUITS. These are the native fruits we all enjoy so much, but seem to forget to plant on our own place. Plant a few of each on your place to enjoy their beauty as well as their delicate native fruit in jellies, jam and sauces. Very easy to grow—all you have to do is plant them. Absolutely hardy of course. We have priced low, so you can plant them all.

CHOKO CHERRY

Nothing Like Choke Cherry Jelly

A-1704—Here is a beautiful ornamental with spicy fragrant flowers produced like great banks of snow. Then comes those tremendous clusters of purplish black cherries. Sid says this is the finest jelly fruit you can grow. Nothing has such a pleasing flavor as choke cherry. You can set a few in the garden, or they are excellent in the windbreak.

SAND CHERRY

Hardest of All

A-1728—A bush fruit that makes an excellent ornamental or hedge. The jet-black fruit is good for canning or sauce, or to eat from the bush.

A strong grower and absolutely none hardier. Drouth resistant. Will produce a heavy crop year after planting. 18 to 24 in. 2 for 98c; 10 for 2.89; 25 for 5.69, postpaid.

EBONY KING

BLACKBERRY

The Upright One

A-2804—This is the new, upright blackberry that is sure to bear heavy crops of large, sweet, full-flavored berries each year. Has withstood 22 degrees below zero without damage to the fruit buds. Very good for canning. Strong plants that stand up under heavy crops of big blackberries. 3 for 1.49; 6 for 2.49; 12 for 3.98; 25 for 7.49, postpaid. All 1 yr. No. 1 grade.

Thornless

BOYSENBERRY

NOW! NO MORE THORNS!

A-2834—This is the only variety of boysenberry we feel justified in offering to you folks. It's thornless for easy picking and you never saw such big berries of such delicious flavor. Cover with 6" of straw after the ground freezes. Not hardy North of Omaha. 1 yr. No. 1 grade. 3 for 1.09; 6 for 1.69; 12 for 2.98; 25 for 5.69, postpaid.

RASPBERRIES

So Luscious But Easy To Grow

About Gurney's Raspberries. With homegrown raspberries you have no waste or shrinkage and you get full delicious flavor. You can't equal your own grown berries picked fresh for each meal. Gurney's raspberries are all large heavy-rooted plants, field grown, and will often produce a considerable amount of fruit the first season. You don't have to have a large garden to accommodate a few raspberries as they do not take up very much room. Plant 3 ft. apart in row with rows 7 ft. apart. Set plants 3 in. deep. We offer you selected varieties.

PLANT 2-YEAR TRANSPLANTS FOR QUICK RESULTS

Bear Quicker and Heavier

Large, heavy-rooted plants that cut planting loss to a minimum. Offer produce a considerable amount the first season. Many folks prefer this size to plant.

MONTMORENCY

The World's Favorite Cherry

A-1336—The fruit is large, with firm flesh of fine flavor. The cherry is bright red, and wonderful for canning and preserves.

Montmorency has proven itself wherever it has been planted. This is one reason Montmorency has been called the world's favorite cherry. Gurney's hardy, Mahaleb, virus-free rootstock will give you better trees that will last longer. This one will produce big crops year after year. Self pollinating. Everyone's always happy with this fine variety. See prices at left on page 22.

EARLY RICHMOND

The Early Pie Cherry

A-1311—The cherries have a bright red skin and red juicy flesh. The flavor is quite tart and marvelous for pies or canning. It is a strong grower and a heavy producer. You people south of southern Minnesota and southern South Dakota have ideal conditions for pie cherries. We consider this one of the very finest pie cherries on the market—all grown on virus-free Mahaleb rootstock to give you longer lived, better producing trees. Self-pollinating. See prices at left on page 22.

YELLOW GLASS

Birds Don't Bother It!

A-1340—Here is a yellow cherry which will load itself down with a tremendous crop of fine golden cherries. Has flavor that is every bit as good, and some consider it better than the delicious Bing Cherry. Hardest of all the sweet cherries.

Because the fruit is yellow, birds leave it alone. Has survived 15 below zero and is probably the best adapted to northern planting conditions. See prices at right.

BLACK TARTARIAN

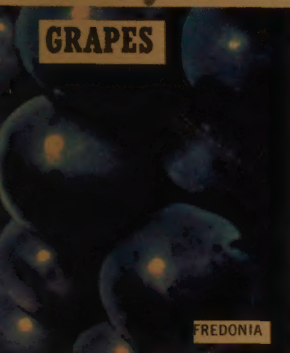

The Large, Black, Sweet Cherry

A-1302—This dependable, large, black and delicious sweet cherry has been one of our most popular varieties for years. If you live where sweet cherries can be grown, (south of central Nebraska and Iowa) plant several Black Tartarian for lots of large, high quality fruit.

They have about the same hardness as Peaches. Plant 2 varieties for proper pollination. Black Tartarian has long been a favorite and you'll like it, too. See prices at left.

ABSOLUTELY GUARANTEED

The reputation we have built up over many, many years in this business is behind every pound of BUG DUST that we sell. It must do what we say it will do or we absolutely guarantee to send your money back. There are no arguments about this, it must satisfy you 100% or we refund every single cent you paid for it.

Gurney's BUG DUST Is Multi-Purpose

It's no longer necessary to buy a dust for this and a dust for that. Gurney's Bug Dust combines them all in one, easy-to-use, multi-purpose dust that takes care of most of both your insecticide and fungicide problems.

Acts 3 Ways

Gurney's BUG DUST works not one—but three ways. It's a STOMACH POISON—a CONTACT POISON—and a FUNGICIDE—ALL IN ONE DUST. That's the reason it is effective on so many different garden pests as well as aiding the control and prevention of the various diseases.

Leaves No Poisonous Residue

No poisonous residue left on the plants if you dust as instructed. This feature alone is very important to everyone that does any dusting around a garden containing edible foods.

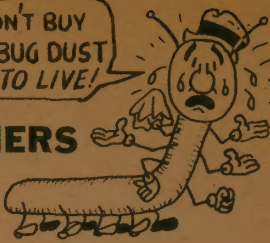

Use It ONCE and be CONVINCED

It is difficult to realize how effective Gurney's BUG DUST is until you use it yourself and see how it works. It's easy to apply, quick acting, and goes to work 3 ways with one application. Do it the easy way with Gurney's famous BUG DUST.

SPECIAL OFFER

WITH GURNEY'S OWN

COMBINATION FRUIT SPRAY

- One Spray Is All You Need!
- Saves Time, Work and Effort
- No Messy Chemicals To Mix
- Economical To Use

OUR COMBINATION FRUIT SPRAY takes the hard work and the high cost out of spraying. And, it does an excellent job of controlling insects and diseases. If you raise any fruit at all and have not tried this spray, we suggest you do.

Spraying Can be Easy. No Need to Buy and Mix Different Chemicals. Use Gurney's COMBINATION FRUIT SPRAY. One spray does it all! Save TIME, WORK AND MONEY!

So Easy To Use

In the past, the trouble with spraying fruit trees has been that you had to buy many different chemicals, get a spray chart and then try to figure out what to mix for each different fruit and time to spray. It was a nuisance and you were apt to get confused and disgusted and figure it wasn't worth the effort.

Now Gurney's COMBINATION FRUIT SPRAY has everything you need for all your fruit trees in one PACKAGE. No need to buy many sprays and dusts. This combines all the new insecticides and fungicides needed in one package.

How To Use

Make a paste, mix with water and apply with any good sprayer. Do not use as a dust. Directions on each package tell you when, what and how to spray.

How Much To Order

You just use one pound of spray with 10 gallons of water—enough to spray 4 average-size fruit trees 5 times during the season. Figure about half that amount for young fruit trees not yet bearing.

Absolutely GUARANTEED

Leading entomologists have recommended this formulation for a multi-purpose fruit spray. Gurney's Fruit Spray contains Malathion, Captan and Methoxychlor—all noted for their high degree of safety for the user as well as doing the job it was developed to do.

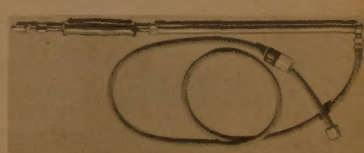

Gurney's Combination Fruit Spray is guaranteed to do the job when instructions are followed. If it doesn't satisfy you 100%, we will refund your money!

For Better Lawns—Trees—Shrubs and Flowers Use Gurney's Famous

GREEN THUMB PLANT FOOD

There's Nothing Better

If your plants get hungry and sickly with yellow leaves, stunted growth and colorless flowers, they need food, water and cultivation. You can either spend hours fertilizing these hungry plants or you can use Gurney's GREEN THUMB PLANT FOOD and do a better job in a short time. In fact, we don't know of anything better for starting newly planted things off right.

Besides being an excellent food for indoor and outdoor plants and flowers, it works equally well on lawns, shrubs, trees and vegetables.

The Action Starts At Once

You just mix 1 tablespoonful with a gallon of water and pour around plant just like you were watering it. Being a liquid, the solution goes directly to the roots and action starts at once. There's no waiting for results—you see them in a matter of days. The solution is odorless and non-poisonous. Contains the nutrition that growing things need.

THEY DO THE TRICK

PRUNING PAINT

AEROSOL BOMB

Use After Pruning

5065—Thousands of valuable trees are lost annually because folks just won't protect the wound after a limb has been removed by pruning. Moisture gets in—rot starts—and so do your troubles. You can play safe and avoid all this with Pruning Paint. Just point the bomb and push the button. Gives real protection. 5 oz. bomb 1.00; 2 for 1.85, postpaid.

GRAFTEX GRAFTING WAX

Nothing Better For Dressing All Tree Wounds

Old Method New Method

5000—Here is a product of many uses. Originally devised as a grafting wax. Graftex has been found to be ideally suited for the dressing of plant wounds and breaks of every type.

Always ready for instant use—no mixing, no preparation is needed. It adheres perfectly even to wet surfaces. Stops bleeding of wounds. It does not dry-out or crack and will conform to the stretching and bending of plant growth. All wounds from branches 1/2" or larger should be given a protective coat of Graftex. 1/2 lb. can only 1.39; 5 lb. can 4.95, postpaid.

ALUMINUM SULPHATE

For Better Hydrangeas

4059—An Absolute "Must" for plants needing acid soil such as blueberries, hydrangea, azaleas, etc. Easy to use. Mix 2 tablespoons with soil when you plant. Scatter one tablespoon around each plant spring and fall. Directions on the package. Plants which need Aluminum Sulphate will perform wonders for you when you feed them this. 1 lb. 69c; 3 lbs. 1.49, postpaid.

LEAF MOLD

Nature's Natural Conditioner

5081—100% organic. Gathered from oak forest. Odorless, weed free, sterilized and fumigated. Keeps soil loose and porous. Equal parts of leaf mold, sand and garden loam make a perfect mixture for house plants. Fine for starting seedlings. Many other uses. 3 lb. bag 1.49, postpaid.

Be Sure to Inoculate With

NITRAGIN

For Peas and Beans

4015—All your garden peas, beans and sweet peas should be inoculated. Inoculation helps the plant to take nitrogen from the air, put it in the soil. It makes a soil builder out of these garden crops instead of a soil robber. You'll find it also increases the yield too.

Just takes a minute to dust it on your seed before planting—no trouble at all but it makes a world of difference in your yield!

Enough to inoculate 5 lbs. of seed. Full directions on each packet. Don't fail to inoculate all your garden legumes such as beans, peas, sweet peas, etc., with Nitragin. Per packet 25c, postpaid.

INOCULANTS and DISINFECTANTS

SEMESAN BEL

Prevents Potato Troubles

4021—Du Pont "Semesan Bel" Dip Disinfectant is a mercurial fungicide specially developed for use as a dip treatment of seed potatoes. When used as directed, it generally reduces losses from scurf and stem rot of sweet potatoes; and for Irish potatoes, combats seed-borne Rhizoctonia and scab and protects against rotting of seed. "Semesan Bel" produces better stands, yields and quality crops. 3 oz. treats 10 to 15 bu. of seed. 3 oz. can 1.45, postpaid.

**Rush Grass
Shopping Bags**
Handsome—Many Uses

5093—We send you a complete set of 2 extremely handsome and durable rush grass shopping bags—big ones too—they measure approximately 16"x5"x9". Self storing when not in use as one nests inside the other. Fine for shopping, as a large purse, swimming parties and many other uses. Built to give lots of service at a low cost. Set of 2 bags, 2.89, or order 1 alone (may be inner or outer one) 1.59, all postpaid.

**Giant-Size Handmade
BEESWAX CANDLES**
Handmade From
Pure Honeycomb Beeswax

Do not confuse these with common paraffin tapers or candles. These are actually handmade from natural, honeycombed, beeswax sheets, giving them a tiny, hexagonal "honeycomb" texture that is extremely lovely.
Big jumbo size (1 1/2" diameter X 5 1/4" circumference) in your choice of two lengths. Pure beeswax is lovely to burn and practical, too. Smokeless and dripless, they do not wilt or bend on hot days as do tallow candles. These sell for \$5 to \$7 each in some gift shops (when you can find them). Two sizes all postpaid.
No. 5094—16" Size 2.69; 3 for 7.75; 6 for 14.95.
No. 5095—8" Size 1.59; 3 for 4.49; 6 for 8.89.
No. 5096—Candle Holders for above: 1.49 ea.; 2 for .89; 4 for 2.79, postpaid.

GURNEY'S GOLDEN HYBRID SEED CORN

SAVES YOU UP TO \$4⁰⁰ PER BUSHEL

Buy Direct and SAVE!

Ever stop to think about how much extra it costs you when you do not buy your corn direct? After all, salesmen are an expensive method of selling and YOU PAY FOR IT. Why not pocket the \$2.50 to \$3.50 per bu. commission that agents get for yourself? Thousands of farmers have found they can do just that and still plant corn equal to any on the market. They do it by ordering Gurney's Golden Hybrid. Why don't you save, too?

As Good As The Best

We think no one is justified in claiming to have the best corn on the market so we don't claim it. We do know our corn is as good and will hold its own in competition with any other brand. Year in and year out it will be on top as often as any other single variety. Because we eliminate the agents' commissions, Gurney's Golden Hybrids sell for \$2.50 to \$3.50 per bushel less. This is a solid fact—not just a claim.

IMPORTANT NOTICE

Due to the minimum charges assessed by railroads and truck lines, the cost of shipping a single bushel of corn is exorbitant. The only remedy for this is orders for sufficient number of bushels to approach the

minimum. Often a person wants only a bushel or two to try in his vicinity. However, there is usually a neighbor or two that would like to try a bushel or more, and when this is the case, combining the orders in one shipment will bring the transportation cost within a reasonable figure. Here are a couple of examples:

The minimum to Wilmar, Minnesota by rail is \$4.00 and the rate is \$1.08 per 100 lbs. You can ship 5 bushels and 16 lbs. for the same cost as a single bushel, or a little less than 80c per bushel.

In South Dakota, a shipment to Redfield by rail carries a minimum charge of \$2.04 and a rate of 91c per 100 lbs. Here you could ship about 4 bushels for about the same price as one and at a cost of slightly over 50c per bushel. The cost of truck shipment usually runs slightly higher than freight, depending on the number of lines handling the shipment. We would be glad to check and furnish exact shipping cost to any station on request.

Save Even More

If you live within driving distance of Yankton; drive in and pick up the corn and field seed that you need. You can pay for your gas and oil and make a substantial saving above this cost as many other customers are now doing.

HERE IS THE ANSWER

When you buy from an agent you must pay \$2.50 to \$3.50 per bushel extra just for his commission. We believe you can find plenty of other places to use that money to better advantage, so why not Buy Gurney's Golden Hybrid Direct and Save?

GURNEY'S GOLDEN 80

(80 to 84 Days)

D-80—Our earliest hybrid and one you will like. It is a yellow dent, and a fine yielder for one so early. Stands up well. A good one for areas of North Dakota and Montana. Recommended, too, for northern Minnesota and high altitudes in Wyoming and Colorado. If you need a good early corn try Gurney's Golden 80.

GURNEY'S GOLDEN 85

(83 to 86 Days)

D-85—Another very early yellow dent hybrid. A shade later and larger than our 80. It requires a longer season but will produce more because it is a little bigger. Recommended for Montana, North Dakota, northern Minnesota and northern South Dakota.

GURNEY'S GOLDEN 90

(88 to 92 Days)

D-90—This is one of our oldest and most reliable numbers. Needs a longer season than our 85 but is larger and produces heavier. Good for north-central South Dakota, north-central Minnesota and similar climates. Has high yield and feeding value for an early corn.

GURNEY'S GOLDEN 95

(93 to 96 Days)

D-95—The heaviest producer of our four real early numbers but takes a little more time to mature. Ears good size—inclined towards roughness. Good feeding quality. A good one for central-Minnesota and similar climates. It has done well in South Dakota in such counties as Faulk, Clark, Grant, Hamlin and Kingsbury.

GURNEY'S GOLDEN 100

(100 to 103 Days)

D-100—This number has excellent producing ability for a corn this early. Ears are uniform and run 7 to 9 inches. Stands very well and ears stay on. In South Dakota it has done well in such counties as Beadle, Kingsbury, Brookings, Jerauld, Sanborn, Miner, Lake Moody and Hamlin. In Minnesota such counties as Lincoln, Renville, Carver, Redwood, Pipestone and Murray. Good most anywhere in central-Minnesota and northern-Iowa.

GURNEY'S GOLDEN 100A

(100 to 103 Days)

D-100A—A possible improvement on our regular 100 because it has a deeper kernel. In maturity, standability and other all-around performance it appears to be equal to our 100. We recommend that those who have been planting 100 try some of this promising number.

GURNEY'S GOLDEN 104

(103 to 106 Days)

D-104—We introduced this number in 1956 and it has continued to build up sales and make friends for us. This number has been outstanding north of Highway 16 and has given satisfactory results as far north as Wheaton, Minnesota. An exceptionally big heavy stalked corn for one as early as it is, with a medium sized large girth ear with deep kernels. One of the highest shelling percentage corns in our line.

GURNEY'S GOLDEN 104A

(105 to 109 Days)

D-104A—A new number of high performance. A few days later than our 104. Pure yellow ears normally 8 to 10 inches. High in yield, has stiff stalks and ears stay on. Adapted to northern-Iowa, southern-Minnesota and the Sioux Falls, Mitchell and Madison areas in South Dakota. This is one of our finest medium-early corns and we know it will do the job for you.

GURNEY'S GOLDEN 105A

(104 to 108 Days)

D-105A—Here is a new number that is 3 to 5 days earlier than the old 105. Pure yellow ears 8 to 10 inches long which form on a heavy stalk around 3 feet from the ground. This should make an excellent main crop corn in the tier of counties north of Highway 16 in South Dakota. You'll get more bushels per acre with this number.

GURNEY'S GOLDEN 107

(109 to 113 Days)

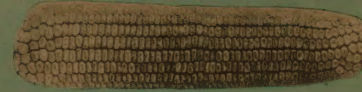

D-107—This new hybrid has an excellent stalk and root system plus beautiful dark green foliage that stays green while the ears ripen. Nice ears normally 9 to 11 inches. High in corn borer tolerance and drought resistant. Maturity between our 104A and 110.

GURNEY'S GOLDEN 110

(110 to 114 Days)

D-110—A late addition to our line, and one which has become very popular. It is a very close relative to our 118A, but is slightly earlier. The ears are slightly rough, cylindrical, normally 9 to 11 inches and have the same orange tint as 118A. Stiff stalks and ears stay on. Adapted to same general area as our 112 and 118A.

GURNEY'S GOLDEN 118A

(112 to 116 Days)

D-118A—This is one of our finest numbers and it has become our biggest seller. It is a toughie, will take a lot of punishment. Has everything—high yield and feeding quality, with excellent standability and ears that stay on. Ears normally 9 to 11 inches, slightly rough, with an orange tint.

GURNEY'S GOLDEN 118B

(113 to 117 Days)

D-118B—A new number that has bright yellow ears normally 9 to 11 inches long. Exceptionally stiff stalk with ears that stay on and ripen while the stalk stays green until frost. Highly resistant to corn borer and diseases. A good picking, top yielder. Tall stalks make it excellent for silage.

Gurney's Are Famous For

About OPEN POLLINATED CORN

For over 50 years, Gurney's have been specialists in open-pollinated seed corn and Gurney's is where farmers send for "bin-busting" strains.

All of Gurney's seed is from the finest open-pollinated strains, carefully picked before cold weather, dried in our huge drier to insure perfect germination. All carefully graded to insure an easy, perfect planting job for you. If you are looking for the finest in open pollinated corns—try Gurney's.

OPEN POLLINATED SEED CORN

MINNESOTA 13

Still A Favorite

D-10—This well-known variety has been popular for many years with good reason. Excellent yielder for its maturity. Ears orange yellow—normally 8 to 9 inches. Grows 6 to 7 feet tall. In South Dakota does well in such counties as Beadle, Kingsbury, Clark, Hamlin and similar areas. Also a favorite in south-central Minnesota. Price 3.95 Per Bu. F.O.B. Yankton.

RAINBOW FLINT

Our Own Introduction

D-30—We originated this corn in 1915. Stalks 7 to 8 ft. tall with 10 to 12 inch ears. Heavy stalks and leafy clear to the ground. Heavy yielder. Highly drought-resistant. Excellent for fodder or hogging-off. Widely adapted and can be successfully grown as fodder at the Canadian line. Price: 5.50 Per Bu., F.O.B. Yankton.

SILVER KING

A Big Yielder

D-50—This is the open-pollinated white corn that makes real profits. Loads of big, beautiful, white ears often 8 to 12 inches long. They generally bring a nice premium, too. Fine for central to southern South Dakota and like areas. Will really give the hybrids a "run" for their money. Price: 3.95 Per Bu., F.O.B. Yankton.

CAN BUY
ANYWHERE AT
ANY PRICE

Here is Where GURNEY'S "BETTER BRED" BABY CHICKS Are Hatched

All Farm Bred for Extra Vigor—Gurney's chicks come from farm-bred flocks which are carefully supervised by our hatcherymen. Our hatching eggs are produced right on the farm to give you better, healthier, hardier chicks. Don't waste time and feed on chicks of doubtful origin. This year insist on Gurney's U.S. Approved and U.S. Pullorum and Typhoid Clean high-producing strains. They are the only chicks you should raise on your farm if you want bigger poultry profits at less cost to you.

ALL GURNEY CHICKS ARE GUARANTEED

100% SAFE ARRIVAL

We guarantee 100% live delivery on all Gurney chicks. Furthermore, we guarantee our prices will be lower, quality considered, than others. All baby chicks must be exactly as represented in grade and breed offered.

Extra chicks are included in each box, so when chicks arrive count the live ones. If you do not have as many live chicks as you ordered, or if any of them are in bad condition, simply have your delivery agent sign a statement and mail to us within 24 hours. We will replace them FREE!

95% TRUE TO SEX

We guarantee our pullets to be ninety-five per cent true to sex. If more than five percent are males, we will make an adjustment on all over five per cent not true to sex, to apply both to cross breed and pure breeds.

All sex complaints must be made within 60 days from the date chicks are received. In case of complaint, proper forms will be sent you. In no case are we liable for more than the original purchase price of the chicks ordered. We reserve the right to ship straight run on heavy cockerel orders if necessary.

Gurney's "G.L." No. 1

Our Finest Egg Producer

LEG-ROCK CROSS

For Both Meat and Eggs

H-30—Combines many of the best points of both the breeds we cross to make them . . . White Leghorns and White Rocks. Have the egg laying ability of the Leghorns, plus the size of the Rocks. Lay early and mature rapidly. Very disease resistant.

AUSTRA-WHITES

Heavy Production—
Large Eggs

H-40—This famous cross combines the champion egg layer of Australia with White Leghorn. Pullets give heavy egg production, and males weigh from 7 to 8 pounds. You'll want your whole flock to be this breed next year!

HAMP-LEGS

Fast Meat—Good Eggs
H-50—By crossing New Hamp with our best White Leghorn pullets, we offer you a combination of the best of both breeds. This cross gives you lots of eggs plus a fast feathering, fast developing meat bird. Rapidly becoming a favorite.

NEW HAMPSHIRE

For Brown Egg Premium
H-60—This fine breed is noted for vigor and hardiness. You can't beat them for heavy egg production or meat. Mature rapidly and their large brown eggs always bring a premium. You'll like Gurney's New Hampshires.

WHITE WYANDOTTES

Fastest Maturing

H-70—These deep-breasted birds are among the first to go to market. They make excellent broilers. Will reach 2 to 3 pounds quicker than almost any other breed. Good rustlers . . . easy to raise . . . mature rapidly. A truly fine meat breed.

S.C. Rhode Island Red

The All-Around Breed

H-80—If you are looking for a real utility chicken you'll choose wisely in selecting this fine breed. Large, brown eggs that command a premium price. If you have never tried S.C. Rhode Island Reds . . . give them a chance.

RED-LEG

The Dual-Purpose Cross
H-90—Now, a cross between the finest blood line Rhode Island Reds and Special mating strain of White Leghorn Pullets. Fine for broilers and exceptionally high egg production. A true dual-purpose chicken that is bound to please.

WHITE ROCKS

The All-Purpose Breed

HOW TO ORDER

Every year many people make the mistake of ordering their chicks too late. The result is, too often, they cannot get the breed they want, the grade they want, or even the delivery date they want. It is just as easy to order early and not take this chance; besides that, early orders save money. Be sure and make a second choice.

About C.O.D.'s

If you do not want to pay for your order in full, just send \$1.00 per 100 down payment for the chicks you want and then send the balance 10 days before the delivery date you specify—no discount under these terms. On C.O.D. shipments for the balance due, you pay the postage and C.O.D. charges.

Orders for less than 100 chicks—add 2c per chick extra.

Pay In Full Before March 15th and

SAVE \$1.00 per 100 chicks

If you place your order and send payment in full before March 15th you may deduct \$1.00 per 100 on all chicks except light cockerels and Fry Pan Special—we will deliver chicks the date you specify.

It Costs Less to Feed Gurney Chicks

It costs no more to feed a high-producing chick than it does to feed a "scrub!" This often means the difference between profit and loss. Why waste that valuable feed? Play Safe! Order chicks you can depend on—it's Gurney's Chicks for high egg production with a minimum feed cost. They are all U.S. Approved, U.S. Pullorum and Typhoid Clean—hatched under the direct supervision of the National Poultry Improvement plan for your protection.

1¢ ANNUAL Flower Seed Offer

New "BRAVO" DIANTHUS "All-America" Medal Winner

1206—A new and brilliant scarlet-red color. Blooms are fringed—1½ inch to 2 inches across. Carries well above foliage. An ideal landscape plant and makes wonderful cut flowers. Plants are dwarf yet very upright and compact which makes them ideal for edging and borders. Height about 8 inches. Blooming period throughout the summer and fall. Pkt. 35c; 3 for 1.00, postpaid.

BABY ROSES

Grow Your Own From Seed

1009—Now, grow baby roses from seed. Seed germinates in three weeks or less. Plants flower in 3 months. They're covered with fragrant blooms in shades of pink, rose and white. Most of them are semi-double. Grows about a foot tall. They stood over winter here in Yankton with no protection. Pkt. 35c; 3 for 1.00; 5 for 1.50, postpaid.

CALIFORNIA BLUEBELL

Blue—Drought-Resistant—Lovely 1006—(Phacelia). This lovely annual grows 8 to 12 inches tall. Thrives in hot dry places, so it will adapt where conditions are "tough!" It smoothes itself with gentian-blue, bell-shaped flowers throughout the season. The more you pick them, the better they bloom. Makes a fine pot plant but is at its best out in the garden in the border. Pkt. 35c; 3 for 1.00, ppd.

Grandma Gurney's SURPRISE FLOWER GARDEN

1200—Here is the right mixture of over 20 kinds of Annual Flowers—all in one big packet—to give you an old-fashioned flower garden that has no equal. You will be extra pleased with the vivid and colorful effect you'll get. Regular pkt. 25c; Extra large pkt. 35c, postpaid.

ANNUAL VINES

1065—Cardinal Climber. This rapid grower makes a dense mat of dark green foliage, set off with countless fiery scarlet flowers over 1 in. across. Pkt. 20c; 2 for 35c, ppd.

1066—Hearts and Honey Vine. Amazingly attractive new Ipomoea. Flowers open a brilliant orange with honey-yellow throat but change in late afternoon to sparkling rose-pink with white center. Deep green, fine-cut foliage. Pkt. 25c; 2 for 40c, ppd.

1115—Cypress Vine. The lacy one. A graceful annual climber with fern-like foliage and small star-shaped blossoms. Grows fast, very showy. Mixed colors. Pkt. 20c, postpaid.

Colorful VINE OFFER

2700X—1 packet each of the 3 beautiful annual climbers for **49c** only ppd.

A New Concept In Color

CHOCOLATE

A New Glad—In BROWN

BG-343—Something new has been added to glads! Gurney's now have one for you in BROWN! A tiger-striped brown on a yellowish-cream background. The dominant color is brown and you can see it across the garden. The tall willowy stems give the spikes a graceful exotic appearance. The florets are open with the upper petal slightly hood shaped. It opens five to seven blooms at one time. A showstopper with charm and beauty the neighbors will come to see a second time.

Gurney's Are FAMOUS For

GLADS

About Gurney's GLADS. Often called the "Queen of Flowers" and rightly so, for no
other flower offers so many forms and colors, such ease of growing or is so widely adapted.
Glads will grow anywhere for anybody. We sometimes refer to them as "The Lazy Man's
Flower."

Set bulbs 4 inches deep in ordinary soil, a little deeper in sandy soil, 6 to 8 inches
apart. They like full sun. Water during the dry spells. Dust with Gurney's Gladiolus
Dust to control insects and disease. After frost kills tops, dig and store in a cool (40
degrees is fine) place until next spring.

Be Sure To Use Gurney's GLAD DUST

For More and Better Blossoms

4073A—A safe, sure method for control of thrip. Use on bulbs in
storage, also on plants in the garden. Dust all kinds of bulbs before
planting. Rodents won't eat them. We have had nothing but praise for
this wonderful dust from our customers who depend on it to keep their
glads clean, free from disease and insects and in better blooming condi-
tion. 12 oz. sifter type can 98c; 3 lb. bag 1.98, postpaid.

4 Finest GLADS \$1²⁵ POST PAID

BG-572X—1 Each of All 4 Below
(To Order Separately, See Prices Below)

So Outstandingly Beautiful

We've put these 4 varieties in a group by themselves. They are THE outstanding glads and that's the only way we can describe them.

BG-223—MIDNIGHT. You won't believe your eyes when you see this black glad—and black is the only way to describe it. You'll get 6 to 8 deep velvety black blossoms in a single spike.

BG-207—GREEN LIGHT. ACTUALLY GREEN! Has 6 to 8 delicate chartreuse flowers on tall 24 to 30 inch ramrod spikes. Cut when buds first open.

BG-220—STORMY NIGHT. A basic brown overlaid with bluish-grey tinge and a white throat. Big ruffled 4" flowers on stiff spikes.

BG-222—STAR SAPPHIRE. Opens 8 to 10 flowers at a time. The center markings give a perfect imitation of a star sapphire. Deep blue with white mid-ribs.

Introducing The NEW PAMPLONA

The Blue of the Future

BG-260—Considered by many to be the future dark blue glad. We describe it as a prune-purpleish blue. Very tall, opening 7 to 9 blossoms at one time. Propagates rapidly. Imported from Holland where it took many prizes. Should be in every glad collection. Don't miss Pamplona if you want real beauty.

49c each; 3 for 1.00; 6 for 1.79, postpaid.

3 Amazing NEW ROYAL

PURPLE DAHLIAS

BG-551X—We Send 3 Giant Bulbs.

New Color—Developed For Us In Holland

BG-82—The pick of sixty new varieties. Medium size—3-4 inches. Its outstanding feature is the new deep royal-purple color. A completely NEW shade—not another one like it. Very strong grower—makes 3 to 4 foot plants. It is one of the most free-blooming dahlias we know.

65c each; 2 for 98c; 3 for 1.74, postpaid.

Gurney's Offer You The Very Finest In DAHLIAS

About Gurney's DAHLIAS
Dahlias appreciate well-drained soil and full sunshine. Plant when the ground warms up. Stake the tall growing ones when you plant; the

foliage will soon hide the stakes. Set your dahlias 2 to 4 ft. apart.
In fall, after frost, dig and store them just like you store potatoes.

CANNAS From Gurney's

ABOUT GURNEY'S CANNAS. One of the "showiest" flowers you can grow. Gives "tropical" effect with giant, beautiful leaves, then loads of color in the fall. Easy to grow, too! Set 4" deep and 1 1/2 to 2 feet apart. Locate bed in sunshine and in rich, well-drained soil. Don't plant in low places as they don't like wet feet, though should not be allowed to dry out. Can store roots in basement or cave over winter for years of bloom.

Gurney Cannas are giant tubers—the finest you can buy.

Why Gurney's Chrysanthemums Are TWO WAYS BETTER

Old Method

New Method

1. Old method of shipping mums was to dig field-grown plants in the fall and store through the winter. They often arrived in your hands in bad shape.

2. Gurney's chrysanthemums are grown and shipped individually in pots in special prefertilized moss and special containers. These arrive in good shape, stay healthy, sound-limbed and do not break in shipment.

(To Order Separately, See Prices Below)

MAIDEN HAIR

The Low Grower

B-2045—(Adiantum pedatum). A beautiful dwarf type with feathery, circular fronds. Thrives best in rich, moist, shady location. Grows to 1 ft. You'll like this one.

OSTRICH PLUME

The Tall Grower

B-2046—A tall growing fern that is by far the best all-around one for general planting. A heavy, strong fern, ideal for planting in shade on north of house. Grows to 3 ft.

LADY FERN

Has Cut Foliage

B-2044—Finely cut foliage and one of the best medium growing ferns. Remain in clump form. Grows to 2 ft. Does well in sun or shade. You'll like its dainty foliage.

CINNAMON FERN

Has Long Fronds

B-2042—Grows well in sun or shade and not particular as to location. Has long fronds that appear sprinkled with cinnamon. 2 ft. It is hardy and will do well for anyone.

HARDY SWORD

The Christmas Fern

B-2047—This is the fern used by florists; especially adapted to moist, shady places, but will grow in sun. Easy to grow. 1 to 2 ft. Popular with everyone.

Your Choice of the Above 5 Ferns: 59c each; 3 for 1.69; 5 for 2.29; postpaid

FORGET-ME-NOT

New Pink Type!

B-2049—Not the ordinary old blue type, but one with clusters of bright pink flowers all summer. Plant where it is moist in either sun or partial shade. Our plants are raised from cuttings so you will be sure to get the true pink. 79c each; 3 for 1.89; 5 for 2.98; postpaid.

HEN and CHICKS

For Hot, Dry Spots

B-2074—Like tiny 5-inch cactus. For cracks or crevices in the rocky or any dry, hot spot in the garden. Each hen "rolls off" several chicks each year so you increase your own. Hardest SHRUBS from Gurney's

About Gurney's SHRUBS. Shrubs add more beauty and value to your home than any other one thing you can plant. A few dollars worth of shrubs can add hundreds of dollars of value to property and turn an unsightly yard into a living picture with plantings to "frame" the yard. Shrubs help make your outdoor living room complete with changing color, accenting points of interest and add privacy for relaxation and rest. We urge all of you to plant shrubs this spring.

HOW TO PLANT—Planting instructions are sent along with your order but a good "rule of thumb" is to plant low shrubs 2½ ft. apart; medium growers 3 to 3½ ft. apart. Immediately following planting, be sure to prune all shrubs back to one-third their original height. This equalizes root loss.

Gurney's shrubs are all strong specimens. Our soil and climate produce very hardy, extra-strong plants—guaranteed to please you.

GLOBE CARAGANA Hardy! No Trimming

A-3816—Extremely hardy and ideal for northern planters. Excellent in the shrub border or makes an unusually attractive hedge about 2 feet tall and never needs trimming.

AZALEA MOLLIS Large-Flowering, Imported

A-3807—Lovely blooms in brilliant, striking colors of red to salmon-red. This selected Holland strain blooms profusely in early spring, but likes an acid soil. Add aluminum sulphate to your soil or peat moss about half and half and mulch around plant.

Husky 3 yr. plants—1.69 each; 3 for 4.69; 5 for 7.49, postpaid.

PURPLE FRINGE The Smoke Tree

A-3905—(Rhus Cotinus). Rich, purple leaves all season with feathery purple flowers appearing in mid-summer. Grows 6 to 8 feet tall, and prefers a sunny location. Not recommended north of central Iowa.

DWARF BARBERRY The Crimson Pygmy

A-3825—This lovely true dwarf will give a delightful color spot in your border or shrub planting. Grows about 18 inches tall and 18 to 24 inches wide. Excellent for use in front of taller shrubs or makes an ideal low hedge. Gives a continuous deep rich maroon-red color from early spring until late fall. 12 to 15 inch, 2.29 each; 3 for 5.98. 9 to 12 inch, 1.98 each; 3 for 4.98, postpaid.

MENTOR BERRY The Green Leafed Beauty

A-3828—A cross between Barberry Thunbergi and Juliana. It has rugged, strong upright growing branches with heavy thorns. Foliage is heavy and thick with perfect color. A dark green Yew shade. Wonderful to withstand heat and drought. Planted 15 inches apart it makes a wonderful hedge.

FLEECE FLOWER For Full Sun

A-2950—(Polygonum Reynoutria). We think this is one of the finest ground covers. Light green foliage turns brilliant in fall. Thrives in full sun, blooming in September with airy pink sprays similar to Silver Lace Vine. Deep red buds add a colorful effect. Tops may winterkill back some, but this is soon covered with new spring growth. Grows 12 to 15 inches. Plant 18 inches apart.

2 yr. medium plants, 98c each; 3 for 2.69; 5 for 4.29, postpaid.

VINCA MINOR Periwinkle

A-2975—One of the best ground covers. Makes a solid mat of glossy green foliage all summer and winter. In early summer it gives a profusion of bright blue flowers. Excellent for covering banks, spots under trees or places where shade doesn't permit grass. Fine also planted with lilies and around clematis to keep the ground cool. Will grow in full sun or shade. Divide bunch we send into 3 or 4 parts, setting them 6 in. apart for a solid carpet of green.

For Loads Of Beauty Plant Clematis

Clematis are large-flowering, heavy-blooming and the most beautiful of all flowering vines. These hybrids have flowers from 4 to 6 inches in diameter! Easy to grow and hardy. Do best on east or northeast side of house. All potted plants from 2 1/4" pots.

Choose From The Following—Ppd. \$1.49 each; 2 for \$2.89, 3 for \$3.98; 4 for \$4.98.

B-1806—Crimson Star Hybrid. A rare new one. Rich red flowers often up to 6" across. Blooms long period.

B-1812—Purple Hybrid. (Jackman). Commonly called clematis "Jack." It covers itself with large purple flowers from July until frost. One of the hardest.

B-1824—White Hybrid. (Lamuginosa Candida). Imagine flowers like immense water lilies. Shows off to fine advantage when planted with red and purple varieties.

B-1809—Golden. (Tangutica). A vigorous growing, free flowering clematis with lantern-like golden yellow flowers all summer. Deep green foliage adds background beauty. Easy to grow on trellis, porch or as ground cover. Increases in beauty each season.

B-1803—Comtesse de Bouchard. This variety of clematis has graceful curved petals of rich satin-pink with deep veins. It is free blooming, strong growing and very thrifty.

B-1820—Paniculata. One of the finest and most satisfactory of all hardy vines. Rapidly gives a dense green foliage with tiny snow white flowers in immense panicles which completely hide the vine in April and again in September. So fragrant it perfumes the entire yard area!

B-1821—Ramona. This is an excellent variety because of its vigorous growth and its many large, soft delicate blue flowers. One of the most beautiful of the clematis.

NO OTHER TREE CAN MATCH THE HYBRID ELM'S FEATURES

- 1. EXTREMELY FAST GROWTH**
Imagine a growth of from 8 to 14 ft. in just one short growing season. This isn't uncommon at all. You really get shade in a hurry with Gurney's Hybrid Elm.
- 2. DISEASE RESISTANT**
Gurney's Hybrid Elms have never been known to be bothered by the dreaded Dutch Elm Disease. This is important to all planters everywhere.
- 3. HARDWOOD—LONG LIFE**
Many believe, because the Hybrid Elm grows so fast, it is a soft wood tree. This is not true. Not only are Gurney's Hybrid Elms a hardwood tree but they are long-lived too.
- 4. HANDSOME SHAPE**
One of the outstanding features of Gurney's amazing Hybrid Elm is its beautiful shape. It grows as symmetrical as any deciduous shade tree we have ever seen.
- 5. FILTERED SHADE**
This is important if you expect to raise a nice lawn beneath your shade tree. The Hybrid Elm has a large leaf yet it is not so dense that the sun can't get through to the grass.

"Harlequin" Variegated Maple A New Standard of Beauty In Shade Trees

A4284—Harlequin, in our opinion, is the most beautiful shade tree in existence today. It is a Norway Maple with a variegated leaf. The young tree pictured above shows the fine shape of this wonderful tree. If you live where you can raise Norway Maple, you can raise Harlequin. The symmetrical, round top makes it a beauty and it grows to a height of about 30 feet. Recommended for the boulevard because it doesn't get too large or tall.

It didn't take us long to realize that Harlequin was one tree we wanted to be sure to offer. Be the first in your neighborhood to try this beautiful new variety. While they last, 4 to 5 foot trees: 4.69 each; 2 for 8.89, ppd.

"Crimson King" MAPLE

The Red Maple that Stays Dark Red Most of the Season

A4285—(Plant Patent No. 735). This new tree was recently brought into this country for propagation. We are very fortunate in that we were again able to secure a supply of this beautiful new maple and are shipping them on a "first come—first served" basis.

You have to see the foliage on Crimson King to really appreciate its beauty. It is much redder than the leaves of Schwedler's Maple, and

keeps its fiery, crimson color throughout most of the growing season.

If you want a truly beautiful red-leaved shade tree—one that your neighbors will talk about—we highly recommend Crimson King Maple.

Gurney's Genuine HYBRID ELM

The Rapid Growth Will Amaze
You and Your Neighbors

It's hard to believe that the Hybrid Elm has actually grown from 8 to 14 ft. in one year and we just can't say enough good things about this wonderful tree. Our customers that are growing it, feel this way too. We don't know of any other shade tree that has as many good qualities and as few faults—if any—as our Hybrid Elm. Because our trees are all budded or grafted they are all identical in type of dark green foliage, bark color, texture, etc. In the years we have sold these trees they have been the perfect answer to our customers' prayers for a rapid growing, hardy, beautiful shade tree.

Hybrid Elms Shipped Ready-Pruned

We do this to allow the tree to replace the many small feeder roots lost in the digging process, and also, to reduce the chance of your losing it.

SEE FOR YOURSELF HOW IT GROWS

This picture shows Dr. D. B. Reaney of Yankton and his Gurney Hybrid Elm. It was 5 ft. tall when planted in June of 1957. The picture was taken in September of 1958. The Doctor stands almost 6 ft. tall.

Northern Grown TREES

HOW WE SHIP

If the shade trees on pages 50 and 51 are too large to go by mail, we send them prepaid Express, Bus or Truck.

Gurney's have been headquarters for tree planters for over 90 years. Whether it be shade trees or windbreak types, you can order from us and know you are getting the finest. We raise our trees right here at Yankton and have our own seed source to assure you of the finest, hardy northern-grown stock that money can buy—at a saving.

CHINESE ELM

THRIVE EVERYWHERE

This is not the ordinary Chinese Elm, but the extra-hardy Siberian type that is doing well on good soil and bad, all the way from Mexico clear up into Canada. It is one of our most useful trees, particularly suited to the Great Plains states. We collect our own seed for these trees and you get the hardy northern type.

NEW SUNBURST LOCUST

New Patented Shade Tree Has
Many Advantages That Make It
A "Must"

A4290—SUNBURST (Plant Patent 1313). Now you can add a touch of color to your landscape with the new, thornless Sunburst Locust. The tips of its branches are a bright golden yellow shading to bronze at the ends. Rich, green inner foliage. It looks like a flowering tree, just bursting into blossom.

Sunburst is exceptionally hardy and resistant to disease and insects. Absolutely seedless.

Named one of the "Ten Top Trees of Tomorrow" by a group of experts.

MULBERRY

For Hedge, Windbreak and Shade

The "Mother Tree," a variety of the Russian Mulberry, has been growing for many years here at Yankton. Bears early and ripens big, luscious, black fruit all summer. A rapid grower and does well in windbreaks, shelterbelts and wildlife plantings. Also makes a fine hedge and can be kept sheared to 3 to 4 ft. high or allowed to grow higher.

Plant them around orchards and the birds will eat the mulberries instead of the other fruit.

Low Growing EVERGREENS

Give Year Around Beauty

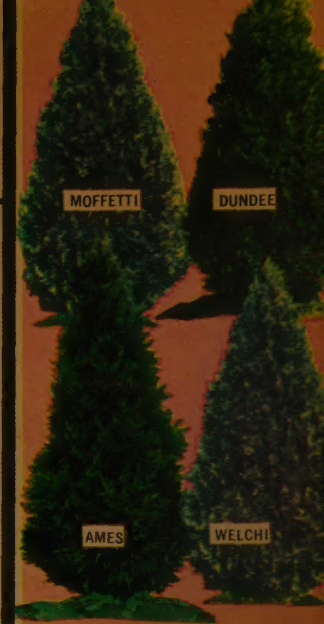

Evergreens give you beauty ALL year—winter as well as summer. These low-growing types are fine for all year beauty in foundation plantings, or with uprights in lawn. Can be sheared, but all naturally stay low. Plant 5 to 6 ft. apart.

IN-44—PFITZER JUNIPER. The Shrub Juniper. Has arching, spreading branches; leathery, gray-green foliage. Hardy everywhere and does well in sun or shade. Gets 6 to 8 ft. across at maturity. Can be kept to 4 ft. by shearing.

IN-19—MUGHO PINE. Dwarf Ball Shaped. The beautiful Dwarf Mountain Pine forms a bushy, compact ball that grows as wide as it does tall. Has long, thick needles of a rich dark green. Makes a beautiful foundation evergreen or for grouping. Seldom grows taller than 4 ft. Can be sheared.

IN-12—SAVINS JUNIPER. It's "Fan Shaped." This is a beautiful fan-shaped evergreen. Is exceptionally hardy and drought resistant. Very dark green. Similar to Pfitzer but more erect. Ideal for foundations.

IN-18—New MANEY JUNIPER. Beautiful Bluish Color. A beautiful, bushy, semi-erect type much in demand for its distinctive blue color. Fills in between uprights and very low growers. Grows to about 3 ft.

Upright JUNIPERS

For Accent Beauty—Very Hardy

Only the upright evergreen offers your yard that "accent" so necessary in framing the home planting. All can be kept sheared to any height desired, in fact the more you shear these, the more compact they grow. When you order any of the following you are getting the very finest.

IN-13-MOFFETTI. Fast-growing, grafted pyramidal Silver Juniper. The foliage is a bright, silver-green. Makes a very compact tree that can be kept to any height desired.

IN-10-DUNDEE. One of the finest and hardiest upright junipers for doorway and foundation plantings. Has feathery, gray-green foliage in summer, that turns to a delightful plum tint in fall and winter.

IN-27-AMES. This lovely new upright is somewhat dwarf in habit and has a lovely blue-green color. Holds its thick foliage clear to the center of the tree. Requires but little shearing and is an excellent foundation planting tree.

IN-11-WELCHI. We consider this to be one of the finest of all compact, upright junipers. Has thick, greenish-silver foliage with upward curving branches making it extremely narrow. Everyone admires this fine hardy upright juniper.

EVERGREENS FOR WINDBREAKS

For Beauty and Service

These trees are just what you want for that grove or windbreak. They are dug in the nursery and immediately dipped in mud so that they'll reach you in perfect condition. Let them branch clear to the ground to shut out the wind and catch the snow. Plant 8 to 12 feet apart each way.

EVERGREENS

About Gurney's Evergreens—You will get an extra 6 months of beauty EACH year for there is no "off Season" to their beauty. Best of all they increase in beauty and value each year. Easy to grow, give you immediate effect.

HOW WE SHIP

All Evergreens listed here are hardy, and have been transplanted three times to make compact, heavy root systems. These strong, well-rooted specimens will grow better for you.

All R.W. trees are shipped to you prepaid. All B & B trees are shipped truck freight or express collect.

B & B Means

"Balled & Burlapped"

All evergreens listed as "B&B" are well-shaped specimens (trees dug with their roots still in a solid ball of rich earth. This ball is carefully wrapped in burlap and bound with twine to keep it from breaking. Shipping weight average 40 to 80 pounds per tree.

R. W. Means "Root-Wrapped"

All evergreens listed as "RW" are root "potted" in mud as soon as dug and individually wrapped in wet moss to make sure they reach you in good growing condition. These trees are well-shaped and priced low.

SUB-ZERO ROSES

Hardest Everblooming Money Can Buy

About Brownell SUB-ZERO ROSES—These are the hybrid tea roses bred to stand the very coldest weather—even 25° below zero. All are beautiful (see pictures at left) but have this extra hardness "built in."

SUB-ZERO ROSE PRICES

Choose From The Following:

A-3415—ORANGE RUFFELS. Delightfully fragrant, big, double blooms. A gorgeous new color of orange, luminous, like glowing sunshine in the rain. Large flowers, fringed, ruffled and gracefully curled. Shaded from capricious orange through saffron yellow. A husky, healthy grower.

A-3412—LILY PONS. Has an indescribably delicate beauty, with exquisite creamy white blossoms and a pure yellow center. Large, graceful flowers and a vigorous free bloomer. Extremely hardy, excellent for northern planting.

A-3402—CURLY PINK. Fully double with curly petals. Giant 5 to 6 inch blooms with perfect form and quality, constancy, vigor beyond words. A lovely 2 toned pink forms a gorgeous bouquet on a single stem. Very hardy.

A-3421—TIP TOES. Long pointed buds opening into gorgeous tea roses, a

Brownells are more constant-blooming everblooming (all-Summer), and more disease resistant than any others we know of. They are fast becoming the first choice of many rose growers. They cost a few cents more but are well worth it.

mixture of blended red, orange and dainty pink tints. Enjoyable, penetrating sweet, spicy fragrance.

A-3404—CEDRIC ADAMS. The finest fully double red, with giant, scarlet blooms. Deep, velvety flowers are so charming, and eye catching, especially against the rich green foliage so shiny and rich. A favorite in Minnesota gardens.

A-3419—SHADES OF AUTUMN. An abundant and joyous expression of bicolored beauty. A beautiful red, yellow and blush bloom is gorgeously outstanding. A vigorous grower, resists black spot and perfectly hardy.

A-3424—V for VICTORY. A beautiful, large, very double, fragrant yellow rose gives constant bloom and ideal form. Gives longer lasting loveliness than any other rose, holding its color better than any other we know of.

About ROSES: There's no thrill for the gardener like the joy and excitement of a delicate rose bud, opening into gorgeous soft colors and hues beyond imagination. And there's nothing that comes in so many different types, we offer these quick descriptions:

HYBRID TEA—Best known of all. Ever-blooming (bloom all summer) with big double blossoms on long stems. Generally fragrant. Winter protect.

POLYANTHUS—Everblooming, low-growing, very "bushy," with small roses borne in clusters of bloom on each stem. Continuous bloomers.

FLORIBUNDA—Like Polyanthus, but with double, hybrid-tea like blossoms in clusters.

SHRUB—Grow 4 to 6 ft. Absolutely hardest of all. No protection needed.

CLIMBING ROSES—Climb over trellis, porch or arbor. Not everblooming (except Blaze) but more blooms than others. Gorgeous sight in bloom.

BROWNELLS—Like hybrid teas, but much harder. Everblooming.

GRANDIFLORA—New strain of giant-size floribunda.

TREE ROSE—Double, everblooming roses on small trees.

Choose From The Following: RED GROOTENDORST

Favorite for Years

A-3690—An old timer but still one of the best shrub roses. Bright red flowers, like carnations in heavy masses, that are very showy against the fine heavy foliage. Grows 3 to 5 feet high. Year after year, you'll enjoy this rose and have no worry, because it's completely hardy. Give plenty of room for it to develop properly and make a real show of its lovely bloom clusters.

PINK GROOTENDORST The Fragrant One

A-3689—Very similar to the Red Grootendorst, but has clear pink flowers with a delightful spicy fragrance. A very prolific grower and abundant bloomer. This ever-blooming Rugosa is a handsome sight all summer and fall with its lovely carnation type pink bloom. Excellent for cemetery planting, a rugged grower, fully hardy, a real favorite. Makes an attractive rose hedge.

HARRISON'S YELLOW Grandma's Favorite

A-3685—One of the very best yellow shrub

roses and one that has been a favorite for a great many years. Semi-double, fragrant, bright yellow flowers and grows about 6 feet tall. If you want a rose like those you used to enjoy, chances are it was this old favorite. Perfectly hardy, takes no special care and sure to please you.

PINK GLORY Heaviest Blooming

A-3676—We believe this is the hardest and most free blooming of all June Roses. We introduced this rose for the first time several years ago and its popularity is gaining by leaps and bounds. Imagine hundreds of beautiful, pink, fully double blooms of large size, and that is Pink Glory. Perfectly hardy without any protection. Makes a fine shrub type plant with attractive foliage. 5 to 6 ft. tall.

LILLIAN GIBSON Big Double Blossoms

A-3687—Produces hundreds of large, double, rose-pink blossoms on sturdy upright bush that grows to 5 feet. Very fragrant and hardy. Developed by the late Dr. N. E. Hansen. This is a sister variety of Pink Glory, excellent for shrub use and absolutely hardy for the north.

Brownell's NEARLY WILD Blooms All Summer

A-3693—A beautiful rounded shrub, loaded all summer with great clusters of apple-blossom-pink, single roses. Much larger than the wild roses, and very hardy. Grows 4 to 5 feet high.

PATENTED HYBRID TEA EVERBLOOMING ROSES

ABOUT PATENTED ROSES—Patented roses are special varieties and introductions on which some hybridizer holds a patent and can set the price. We think that, though some introductions are very fine, the prices are very high. However, for the convenience of Gurney customers, we list the best "patents" available at price set by the introducer.

Choose From The Following Varieties:

A-3633—PINK PEACE. (P.P. 1759). This great new rose has everything with giant flowers up to 5 inches across. A rich pink color, delightful fragrance and vigorous healthy plants, with rich, attractive, leathery foliage. 3.00 each; 3 for 7.95, postpaid.

A-3651—STERLING SILVER. (P.P. 1433). The newest color in roses. Long, pointed lavender-pink buds open with delicate into large, very fragrant, silvery-lavender blooms. 3.00 each; 3 for 7.95, postpaid.

A-3650—KORDES PERFECTA. (P.P. 1804). Here is one of the finest of all great roses. A fascinating combination of creamy-white edged carmine-pink on a yellow base. 3.00 each; 3 for 7.95, postpaid.

A-3639—QUEEN ELIZABETH. (P.P. 1259). Enjoy its breathtaking blend of soft rose and pink, a delicacy against its deep green, glossy foliage. Fragrant flowers all summer long. 2.50 each; 3 for 6.75, postpaid.

A-3636—CHRYSLER IMPERIAL. (P.P. 1167). An All-America Award Winner. Huge, long, tapering, vivid, rich crimson buds are a sight to behold. Buds open to a brilliant 40-petal blossom of enchanting fragrance. 2.50 each; 3 for 6.75, postpaid.

A-3634—GARDEN PARTY. (P.P. 1814). Vigorous, healthy plants produce huge, gorgeous flowers of the richest ivory with just a touch of apple-blossom pink. One of the loveliest All-America roses in years. 3.00 each; 3 for 7.95, ppd.

A-3631—MEMORIAM. (PAF) Lovely, pink and cream buds, long-pointed, large and perfectly formed, that unfold slowly into delightfully luminous flowers with 50-60 petals of remarkable substance. 3.50 each; 3 for 8.98, postpaid.

A-3630—TROPICANA. (Pat. No. 1969) Now you can enjoy a constant flow of fluorescent orange-red blooms all season. This new 1963 All-America Award Winner has double, sweetly scented flowers on long stems that are fine for cutting. 3.50 each; 3 for 8.98, postpaid.

EUTIN

AMY VANDERBILT

FLORIBUNDA ROSES MOST POPULAR IN AMERICA

About FLORIBUNDA ROSES — Floribunda means "many blooms." They are derived from crosses of hybrid tea roses (for large bloom) with polyanthus roses (many blooms in cluster on each stem). So these give you the best of both—many blooms in clusters and large tea-type ones. The plant is bushier and showier, too, than most roses. Rapidly becoming the country's favorite rose.

GURNEY'S Popular HYBRID TEA ROSES

About HYBRID TEA ROSES—Did you know that 75% of all roses planted are Hybrid Teas? The reasons are simple—they bloom all summer; they produce giant "greenhouse" type roses on long stems; they have pointed buds; vary from single to full doubles; and are very, very fragrant. All are excellent for cutting. Set 2 to 3 ft. apart and winter protect in northern areas.

YOU CAN HAVE A BEAUTIFUL LAWN

GURNEY'S LAWN SEED

About LAWN SEED. South Dakota is the largest producer of blue grass in America. We choose only the finest obtainable—extra hardy strains, and extra drought resistant. No finer lawn seeds available at any price!

IT'S EASY TO SEED A GURNEY LAWN

- 1 Plow or spade deeply and remove sticks, stones and lumps by raking smooth.
- 2 Roll area thoroughly to provide a firm seed bed. A smooth seed bed permits even sowing and saves seed.
- 3 Sow by hand or with a mechanical seeder using 1 lb. to 225 square feet.
- 4 After sowing, rake carefully to work seed into the soil. This is very important.
- 5 After raking you should roll once more to provide a firm seed bed. Water well and that's all there is to it.

PURE KENTUCKY BLUE

Favorite of All

79—We have the true northern-harvested Kentucky Blue Grass of extreme hardiness. No finer seed available anywhere. You will be mighty happy with Gurney's Pure Kentucky Blue. It's the most popular in America. Use 1 pound of seed for 225 square feet. 1 lb. 1.30; 3 lbs. 3.72; 5 lbs. 6.10; 10 lbs. 11.40, postpaid.

CAPITAL LAWN MIXTURE

For Dry Locations

123—Best lawn mixture for the north-west. Kentucky Blue Grass, Annual and Perennial Rye Grasses, Creeping Red Fescue and Red Top. Best mixture known for places where rainfall is light and artificial watering impossible. 1 lb. 1.25; 3 lbs. 3.45; 5 lbs. 5.24; 10 lbs. 9.50, all postpaid.

SUNSHINE LAWN MIXTURE

For Quickest Lawn

119—Kentucky Blue Grass with Rye Grasses for a nurse crop to give you a quick lawn. Enriched with New Park Kentucky Blue Grass and Creeping Red Fescue to provide permanency. Folks can't say enough good things about this fine mixture. Sow 1 lb. to 225 square feet. 1 lb. 1.40; 3 lbs. 3.90; 5 lbs. 5.95; 10 lbs. 11.50, postpaid.

GREEN CARPET MIXTURE

For Best Possible Lawn

121—This is the mixture you should plant if you really want a fine permanent lawn—and want one quick. We've mixed plenty of Kentucky Blue Grass along with Rye Grasses and Fescue to give a rich, permanent lawn to be proud of. Little Sugar TOMATO
The Early Red Cherry Type

404—(50 days.) Sweetest of all tomatoes. Brilliant scarlet fruits about 1 inch in diameter borne in grape-like clusters often 6 to 8 inches long. The first tomato to ripen in the garden. The fruits make excellent preserves, juice or can be canned without adding sugar. Put them in the freezer for a winter salad—they add to the appearance of a relish dish along with olives and pickles. Vigorous growing vine and will grow to 6 or 8 feet if trained to a support.
Packet 25c; 2 packets 45c; ½ oz. 98c, POSTPAID

Announcing the New and Early Peter Piper PEPPER
About 2 Weeks Earlier Than Others!

646—Peter Piper Picked A Peck of Peppers! You'll pick bushels with this new one! A new hybrid just released by the South Dakota Experiment Station. It is a cross between Margold and an improved "squash" type. The fruits are short and blocky, 3¼ inches deep, 2½ inches in diameter. Square and blunt, nearly all meat with a good deep red color and a delightful flavor. Plant is medium in size. Fruits are set close to the branches and held in an upright position. The best thing about it is they are ready for harvest two weeks earlier than any of the other standard varieties. Peppers will average around 3.3 ounces. With us, it outyields all of the other kinds.
